EQUITY STYLE BOX

INVESTMENT STYLE			MARKET CAPITALIZATION
Value	Blend	Growth	

Placement within the Morningstar Equity Style Box™ is based on two variables: relative median market capitalization and relative price valuations (price-to-book and price-to-earnings) of the Fund's portfolio holdings. These numbers are drawn from the Fund's portfolio holdings figures most recently entered into Morningstar's database and the corresponding market conditions.

INVESTMENT OBJECTIVE

Seeks long-term capital appreciation.

Figures quoted represent past performance, which is no guarantee of future results. Investment return and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Current performance may be lower or higher than the performance data quoted. Current month-end performance is available at the Funds' Web site, www.wellsfargo.com/advantagefunds.

Administrator Class shares are sold without a front-end sales charge or contingent deferred sales charge.

The adviser has committed, through 2/28/2010, to waive fees and/or reimburse expenses to maintain the Fund's net expense ratio at 1.04% for Administrator Class shares. Without these reductions, the Fund's returns would have been lower. The Fund's gross expense ratio is 1.19% for Administrator Class shares.

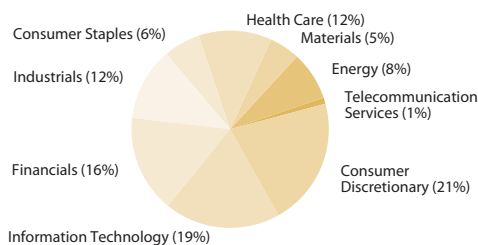

Please keep in mind that high double-digit returns were primarily achieved during favorable market conditions. You should not expect that such favorable returns can be consistently achieved. A Fund's performance, especially for very short time periods, should not be the sole factor in making your investment decision.

GROWTH OF \$10,000 & ANNUAL RETURNS (ADMINISTRATOR SHARES)¹

Assumes reinvestment of dividends and capital gains.

SECTOR DISTRIBUTION

Sector distribution is a breakdown of the Fund's investments based on the S&P Global Industry Classification Standard (GICS), a breakdown of market sectors used by Standard & Poor's. Sector distributions are subject to change and may have changed since the date specified.

Opportunity Fund

INVESTMENT STRATEGY

- We invest principally in equity securities of medium-capitalization companies, which we define as those within the range of market capitalizations of companies in the Russell Midcap® Index. We may also invest in equity securities of foreign issuers through ADRs and similar investments.

Stock fund values fluctuate in response to the activities of individual companies and general market and economic conditions. Smaller company stocks tend to be more volatile and less liquid than those of larger companies. The use of derivatives may reduce returns and/or increase volatility. Certain investment strategies tend to increase the total risk of an investment (relative to the broader market). This Fund is exposed to foreign investment risk. Consult the Fund's prospectus for additional information on these and other risks.

(1) Administrator Class shares inception on August 30, 2002. Performance shown prior to the inception of the Administrator Class reflects the performance of the Investor Class shares of the Strong Opportunity Fund, the predecessor fund, and includes expenses that are not applicable to and are higher than those of the Administrator Class shares.

(2) The Lipper Multi-Cap Core Funds Average is an average of funds that invest in a variety of market capitalization ranges without concentrating 75% of their equity assets in any one market capitalization range over an extended period of time. Multi-cap funds typically have between 25% and 75% of their assets invested in companies with market capitalizations (on a three-year weighted basis) above 300% of the dollar-weighted median market capitalization of the middle 1,000 securities of the S&P SuperComposite 1500 Index. These funds typically have an average price-to-earnings ratio, price-to-book ratio, and three-year sales-per-share growth value, compared to the S&P SuperComposite 1500 Index. The total return of the Lipper Average does not include the effect of sales charges. You cannot invest directly in a Lipper Average.

(3) The Russell Midcap® Index measures the performance of the 800 smallest companies in the Russell 1000 Index, which represent approximately 25% of the total market capitalization of the Russell 1000 Index. You cannot invest directly in an index.
