## CALIFORNIA MUNICIPAL MONEY MARKET FUND SUMMARY

### Investment Objective

The Fund seeks current income exempt from regular federal income tax and California individual income tax, while preserving capital and liquidity.

### Fees and Expenses

These tables are intended to help you understand the various costs and expenses you will pay if you buy and hold shares of the Fund.

#### Shareholder Fees (fees paid directly from your investment)

Maximum sales charge (load) imposed on purchases (as a percentage of offering price)	None
Maximum deferred sales charge (load) (as a percentage of offering price)	None

#### Annual Fund Operating Expenses (expenses that you pay each year as a percentage of the value of your investment)

Management Fees	0.10%
Distribution (12b-1) Fees	0.00%
Other Expenses	0.27%
<b>Total Annual Fund Operating Expenses</b>	<b>0.37%</b>
Fee Waiver	0.07%
<b>Total Annual Fund Operating Expenses After Fee Waiver<sup>1</sup></b>	<b>0.30%</b>

1. The Adviser has committed through May 31, 2014 to waive fees and/or reimburse expenses to the extent necessary to cap the Fund's Total Annual Fund Operating Expenses After Fee Waiver at the amounts shown above. Brokerage commissions, stamp duty fees, interest, taxes, acquired fund fees and expenses and extraordinary expenses are excluded from the cap. After this time, the cap may be increased or the commitment to maintain the cap may be terminated only with the approval of the Board of Trustees.

### Example of Expenses

The example below is intended to help you compare the costs of investing in the Fund with the costs of investing in other mutual funds. The example assumes a \$10,000 initial investment, 5% annual total return, and that operating expenses remain the same as in the tables above. The example also assumes that the Total Annual Fund Operating Expenses After Fee Waiver shown above will only be in place for the length of the current waiver commitment. Although your actual costs may be higher or lower, based on these assumptions your costs would be:

<b>After:</b>	
1 Year	\$31
3 Years	\$112
5 Years	\$201
10 Years	\$461

## Principal Investment Strategies

Under normal circumstances, we invest:

- exclusively in high-quality, short-term money market instruments; and
- at least 80% of the Fund's net assets in municipal obligations that pay interest exempt from California individual income tax and regular federal income tax, but not necessarily the federal alternative minimum tax ("AMT").

We may also invest:

- any amount of the Fund's total assets in municipal obligations that pay interest subject to federal AMT.

We actively manage a portfolio of high-quality, short-term municipal obligations that are issued by or on behalf of the state of California, its cities, municipalities, political subdivisions and other public authorities. These investments may have fixed, floating, or variable rates of interest.

We may invest a portion of the Fund's total assets in the securities of territories and possessions of the U.S. or their political subdivisions and financing authorities that pay interest exempt from regular federal income tax and California individual income tax.

We invest principally in municipal obligations that pay interest exempt from California individual income tax and regular federal income tax, but not necessarily federal AMT. The Fund attempts to invest exclusively in municipal obligations that pay interest exempt from California individual income tax and regular federal income tax. However, the Fund may invest up to 20% of its net assets in high-quality, short-term money market instruments that pay interest subject to California individual income tax and regular federal income tax.

Our security selection is based on several factors, including credit quality, yield and maturity, while taking into account the Fund's overall level of liquidity and weighted average maturity.

## Principal Investment Risks

An investment in the Fund may lose money, is not a deposit of Wells Fargo Bank, N.A. or its affiliates, is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other governmental agency, and is primarily subject to the risks briefly summarized below.

**California Municipal Securities Risk.** Events in California are likely to affect a Fund's investments in California municipal securities. California may experience economic, budgetary, and financial stress, resulting in weakened economic and revenue performance for the State and its agencies or municipalities and downgrades to the credit ratings of the State's general obligation debt. These events may adversely impact the liquidity and values of the California municipal securities in which the Fund invests.

**Debt Securities Risk.** The issuer of a debt security may fail to pay interest or principal when due, and the value of a debt security may decline if an issuer defaults or if its credit quality deteriorates. Changes in market interest rates may reduce the value of debt securities or reduce the Fund's returns.

**Issuer Risk.** The value of a security may decline because of adverse events or circumstances that directly relate to conditions at the issuer or any entity providing it credit or liquidity support.

**Management Risk.** There is no guarantee of the Fund's performance or that the Fund will meet its objective. The market value of your investment may decline and you may suffer investment loss.

**Market Risk.** The market price of securities owned by the Fund may rapidly or unpredictably decline due to factors affecting securities markets generally or particular industries.

**Money Market Fund Risk.** Although the Fund seeks to maintain the value of your investment at \$1.00 per share, there is no assurance that it will be able to do so, and it is possible to lose money by investing in the Fund.

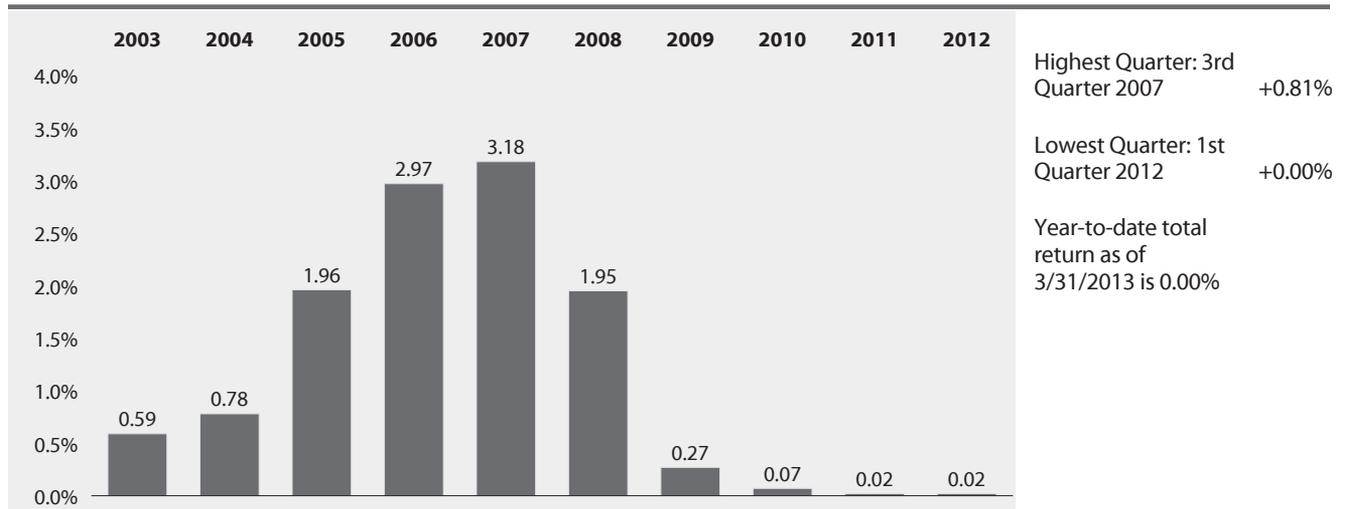

**Municipal Securities Risk.** Municipal securities rely on the creditworthiness or revenue production of their issuers or auxiliary credit enhancement features. The Fund may invest 25% or more of its total assets in municipal securities that are related in such a way that political, economic or business developments affecting one obligation would affect the others. Tax authorities are paying increased attention as to whether interest on municipal obligations is tax exempt, and we cannot assure you that a tax authority will not successfully challenge the exemption of a bond held by the Fund. The ongoing issues facing the national economy are negatively impacting the economic performance of many issuers of municipal securities, and may increase the likelihood that issuers of securities in which the Fund may invest may be unable to meet their obligations.

**Regulatory Risk.** Changes in government regulations may adversely affect the value of a security. An insufficiently regulated industry or market might also permit inappropriate practices that adversely affect an investment.

## Performance

The following information provides some indication of the risks of investing in the Fund by showing changes in the Fund's performance from year to year. Past performance is no guarantee of future results. Current month-end performance is available on the Fund's Web site at [wellsfargoadvantagefunds.com](http://wellsfargoadvantagefunds.com). To obtain a current 7-day yield for the Fund call toll-free 1-800-222-8222.

### Calendar Year Total Returns as of 12/31 each year Administrator Class

### Average Annual Total Returns for the periods ended 12/31/2012

Administrator Class	6/30/2010	0.02%	0.46%	1.17%

## Fund Management

Adviser	Sub-Adviser
Wells Fargo Funds Management, LLC	Wells Capital Management Incorporated

### Purchase and Sale of Fund Shares

Administrator Class shares are generally available through financial intermediaries for the accounts of their customers and directly to institutional investors and individuals. Institutional investors may include corporations; private banks and trust companies; endowments and foundations; defined contribution, defined benefit and other employer sponsored retirement plans; institutional retirement plan platforms; insurance companies; registered investment advisor firms; bank trusts; 529 college savings plans; family offices; and fund of funds including those managed by Funds Management. In general, you can buy or sell shares of the Fund by mail, internet, phone or wire on any day the New York Stock Exchange is open for regular trading. You also may buy and sell shares through a financial professional.

Minimum Investments	To Buy or Sell Shares
<b>Minimum Initial Investment</b> Administrator Class: \$1 million (this amount may be reduced or eliminated for certain eligible investors)	<b>Mail:</b> Wells Fargo Advantage Funds P.O. Box 8266 Boston, MA 02266-8266 <b>Internet:</b> wellsfargoadvantagefunds.com <b>Phone or Wire:</b> 1-800-222-8222
<b>Minimum Additional Investment</b> Administrator Class: None	<b>Contact your investment representative.</b>

### Tax Information

The Fund's distributions normally consist of exempt-interest dividends, which are generally not taxable to you for federal income tax purposes, but may be subject to federal AMT. A portion of the Fund's distributions may not qualify as exempt-interest dividends; such distributions will generally be taxable to you as ordinary income or capital gains, unless you are investing through a tax-deferred arrangement, such as a 401(k) plan or an individual retirement account. However, subsequent withdrawals from such a tax advantaged investment plan may be subject to federal income tax. You should consult your tax adviser about your specific situation.

### Payments to Broker-Dealers and Other Financial Intermediaries

If you purchase a Fund through a broker-dealer or other financial intermediary (such as a bank), the Fund and its related companies may pay the intermediary for the sale of Fund shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend the Fund over another investment. Consult your salesperson or visit your financial intermediary's Web site for more information.

## CASH INVESTMENT MONEY MARKET FUND SUMMARY

### Investment Objective

The Fund seeks current income, while preserving capital and liquidity.

### Fees and Expenses

These tables are intended to help you understand the various costs and expenses you will pay if you buy and hold shares of the Fund.

#### Shareholder Fees (fees paid directly from your investment)

Maximum sales charge (load) imposed on purchases (as a percentage of offering price)	None
Maximum deferred sales charge (load) (as a percentage of offering price)	None

#### Annual Fund Operating Expenses (expenses that you pay each year as a percentage of the value of your investment)

Management Fees	0.10%
Distribution (12b-1) Fees	0.00%
Other Expenses	0.25%
<b>Total Annual Fund Operating Expenses</b>	<b>0.35%</b>
Fee Waiver	0.00%
<b>Total Annual Fund Operating Expenses After Fee Waiver<sup>1</sup></b>	<b>0.35%</b>

1. The Adviser has committed through May 31, 2014 to waive fees and/or reimburse expenses to the extent necessary to cap the Fund's Total Annual Fund Operating Expenses After Fee Waiver at the amounts shown above. Brokerage commissions, stamp duty fees, interest, taxes, acquired fund fees and expenses and extraordinary expenses are excluded from the cap. After this time, the cap may be increased or the commitment to maintain the cap may be terminated only with the approval of the Board of Trustees.

### Example of Expenses

The example below is intended to help you compare the costs of investing in the Fund with the costs of investing in other mutual funds. The example assumes a \$10,000 initial investment, 5% annual total return, and that operating expenses remain the same as in the tables above. The example also assumes that the Total Annual Fund Operating Expenses After Fee Waiver shown above will only be in place for the length of the current waiver commitment. Although your actual costs may be higher or lower, based on these assumptions your costs would be:

<b>After:</b>	
1 Year	\$36
3 Years	\$113
5 Years	\$197
10 Years	\$443

## Principal Investment Strategies

Under normal circumstances, we invest:

- exclusively in high-quality, short-term, U.S. dollar-denominated money market instruments of domestic and foreign issuers.

These instruments include, but are not limited to, bank obligations such as time deposits and certificates of deposit, government securities, asset-backed securities, commercial paper, corporate bonds, municipal securities and repurchase agreements. These investments may have fixed, floating, or variable rates of interest and may be obligations of U.S. or foreign issuers. We may invest more than 25% of the Fund's total assets in U.S. dollar-denominated obligations of U.S. banks. We will only purchase First Tier securities.

Our security selection is based on several factors, including credit quality, yield and maturity, while taking into account the Fund's overall level of liquidity and weighted average maturity.

## Principal Investment Risks

An investment in the Fund may lose money, is not a deposit of Wells Fargo Bank, N.A. or its affiliates, is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other governmental agency, and is primarily subject to the risks briefly summarized below.

**Counter-Party Risk.** A Fund may incur a loss if the other party to an investment contract, such as a derivative or a repurchase or reverse repurchase agreement, fails to fulfill its contractual obligation to the Fund.

**Debt Securities Risk.** The issuer of a debt security may fail to pay interest or principal when due, and the value of a debt security may decline if an issuer defaults or if its credit quality deteriorates. Changes in market interest rates may reduce the value of debt securities or reduce the Fund's returns.

**Foreign Investment Risk.** Foreign investments face the potential of heightened illiquidity, greater price volatility and adverse effects of political, regulatory, tax, currency, economic or other macroeconomic developments.

**Issuer Risk.** The value of a security may decline because of adverse events or circumstances that directly relate to conditions at the issuer or any entity providing it credit or liquidity support.

**Management Risk.** There is no guarantee of the Fund's performance or that the Fund will meet its objective. The market value of your investment may decline and you may suffer investment loss.

**Market Risk.** The market price of securities owned by the Fund may rapidly or unpredictably decline due to factors affecting securities markets generally or particular industries.

**Money Market Fund Risk.** Although the Fund seeks to maintain the value of your investment at \$1.00 per share, there is no assurance that it will be able to do so, and it is possible to lose money by investing in the Fund.

**Municipal Securities Risk.** Municipal securities rely on the creditworthiness or revenue production of their issuers or auxiliary credit enhancement features. The Fund may invest 25% or more of its total assets in municipal securities that are related in such a way that political, economic or business developments affecting one obligation would affect the others. Tax authorities are paying increased attention as to whether interest on municipal obligations is tax exempt, and we cannot assure you that a tax authority will not successfully challenge the exemption of a bond held by the Fund. The ongoing issues facing the national economy are negatively impacting the economic performance of many issuers of municipal securities, and may increase the likelihood that issuers of securities in which the Fund may invest may be unable to meet their obligations.

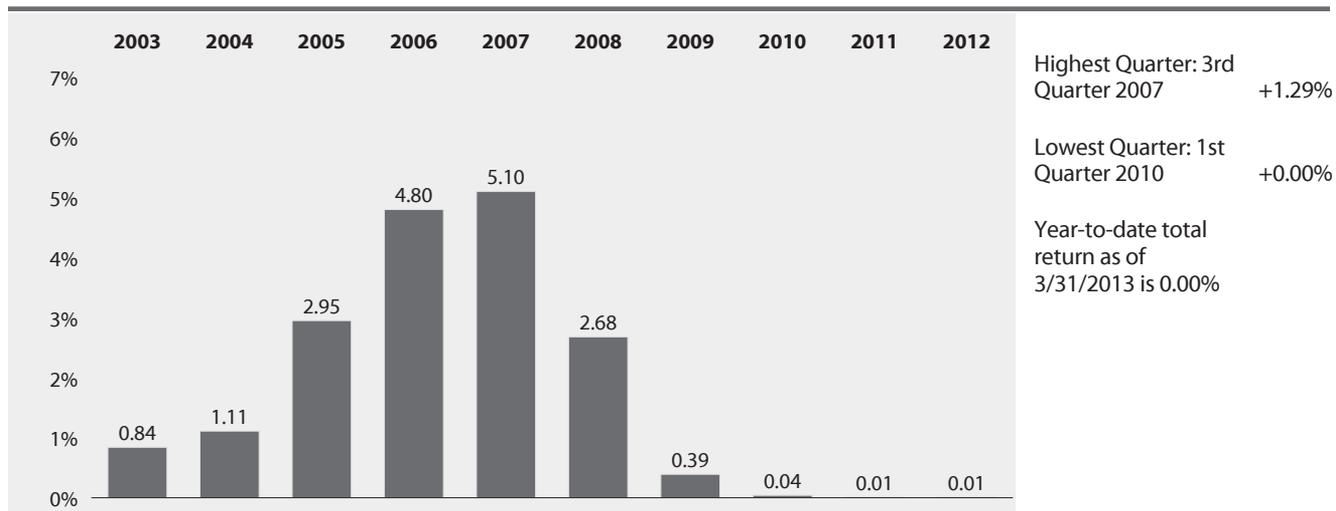

**Regulatory Risk.** Changes in government regulations may adversely affect the value of a security. An insufficiently regulated industry or market might also permit inappropriate practices that adversely affect an investment.

**U.S. Government Obligations Risk.** U.S. Government obligations may be adversely affected by changes in interest rates, a default by, or decline in the credit quality of, the U.S. Government, and may not be backed by the full faith and credit of the U.S. Government.

## Performance

**Management Risk.** There is no guarantee of the Fund's performance or that the Fund will meet its objective. The market value of your investment may decline and you may suffer investment loss.

**Market Risk.** The market price of securities owned by the Fund may rapidly or unpredictably decline due to factors affecting securities markets generally or particular industries.

**Money Market Fund Risk.** Although the Fund seeks to maintain the value of your investment at \$1.00 per share, there is no assurance that it will be able to do so, and it is possible to lose money by investing in the Fund.

**Municipal Securities Risk.** Municipal securities rely on the creditworthiness or revenue production of their issuers or auxiliary credit enhancement features. The Fund may invest 25% or more of its total assets in municipal securities that are related in such a way that political, economic or business developments affecting one obligation would affect the others. Tax authorities are paying increased attention as to whether interest on municipal obligations is tax exempt, and we cannot assure you that a tax authority will not successfully challenge the exemption of a bond held by the Fund. The ongoing issues facing the national economy are negatively impacting the economic performance of many issuers of municipal securities, and may increase the likelihood that issuers of securities in which the Fund may invest may be unable to meet their obligations.

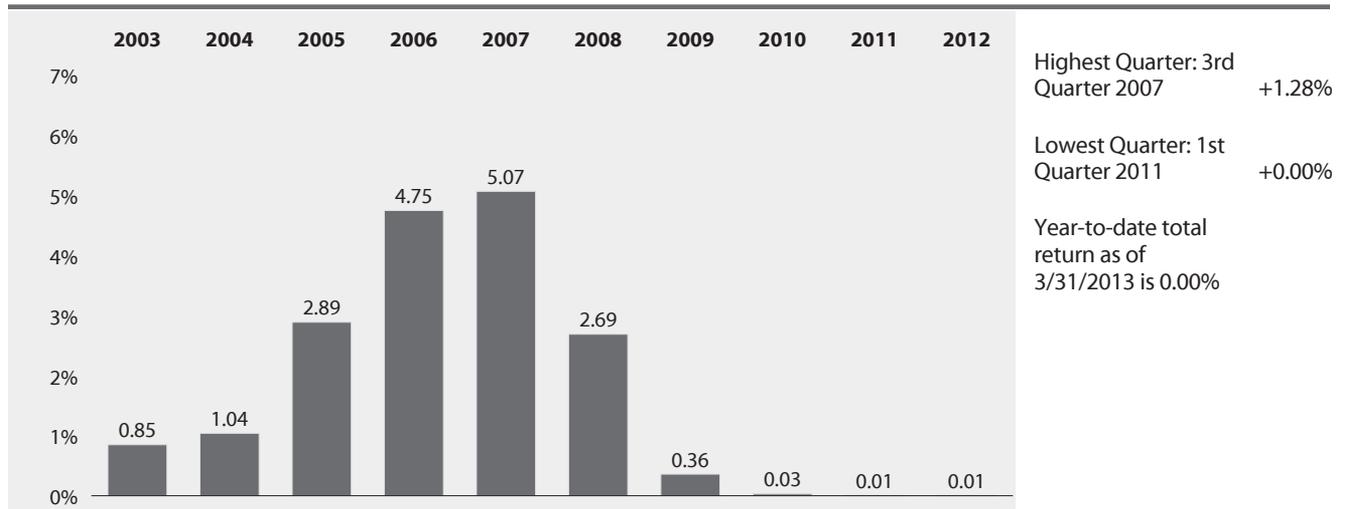

**Regulatory Risk.** Changes in government regulations may adversely affect the value of a security. An insufficiently regulated industry or market might also permit inappropriate practices that adversely affect an investment.

**U.S. Government Obligations Risk.** U.S. Government obligations may be adversely affected by changes in interest rates, a default by, or decline in the credit quality of, the U.S. Government, and may not be backed by the full faith and credit of the U.S. Government.

## Performance

The following information provides some indication of the risks of investing in the Fund by showing changes in the Fund's performance from year to year. Past performance is no guarantee of future results. Current month-end performance is available on the Fund's Web site at [wellsfargoadvantagefunds.com](http://wellsfargoadvantagefunds.com). To obtain a current 7-day yield for the Fund call toll-free 1-800-222-8222.

### Calendar Year Total Returns as of 12/31 each year Administrator Class

### Average Annual Total Returns for the periods ended 12/31/2012

	Inception Date of Share Class	1 Year	5 Year	10 Year

## Fund Management

Adviser	Sub-Adviser
Wells Fargo Funds Management, LLC	Wells Capital Management Incorporated

### Purchase and Sale of Fund Shares

Administrator Class shares are generally available through financial intermediaries for the accounts of their customers and directly to institutional investors and individuals. Institutional investors may include corporations; private banks and trust companies; endowments and foundations; defined contribution, defined benefit and other employer sponsored retirement plans; institutional retirement plan platforms; insurance companies; registered investment advisor firms; bank trusts; 529 college savings plans; family offices; and fund of funds including those managed by Funds Management. In general, you can buy or sell shares of the Fund by mail, internet, phone or wire on any day the New York Stock Exchange is open for regular trading. You also may buy and sell shares through a financial professional.

Minimum Investments	To Buy or Sell Shares
<b>Minimum Initial Investment</b> Administrator Class: \$1 million (this amount may be reduced or eliminated for certain eligible investors)	<b>Mail:</b> Wells Fargo Advantage Funds P.O. Box 8266 Boston, MA 02266-8266 <b>Internet:</b> wellsfargoadvantagefunds.com <b>Phone or Wire:</b> 1-800-222-8222
<b>Minimum Additional Investment</b> Administrator Class: None	<b>Contact your investment representative.</b>

### Tax Information

Any distributions you receive from the Fund may be taxable as ordinary income or capital gains, except when your investment is in an IRA, 401(k) or other tax advantaged investment plan. However, subsequent withdrawals from such a tax advantaged investment plan may be subject to federal income tax. You should consult your tax adviser about your specific tax situation.

### Payments to Broker-Dealers and Other Financial Intermediaries

If you purchase a Fund through a broker-dealer or other financial intermediary (such as a bank), the Fund and its related companies may pay the intermediary for the sale of Fund shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend the Fund over another investment. Consult your salesperson or visit your financial intermediary's Web site for more information.

## MUNICIPAL CASH MANAGEMENT MONEY MARKET FUND SUMMARY

### Investment Objective

The Fund seeks current income exempt from regular federal income tax, while preserving capital and liquidity.

### Fees and Expenses

These tables are intended to help you understand the various costs and expenses you will pay if you buy and hold shares of the Fund.

#### Shareholder Fees (fees paid directly from your investment)

Maximum sales charge (load) imposed on purchases (as a percentage of offering price)	None
Maximum deferred sales charge (load) (as a percentage of offering price)	None

#### Annual Fund Operating Expenses (expenses that you pay each year as a percentage of the value of your investment)

Management Fees	0.10%
Distribution (12b-1) Fees	0.00%
Other Expenses	0.26%
<b>Total Annual Fund Operating Expenses</b>	<b>0.36%</b>
Fee Waiver	0.06%
<b>Total Annual Fund Operating Expenses After Fee Waiver<sup>1</sup></b>	<b>0.30%</b>

1. The Adviser has committed through May 31, 2014 to waive fees and/or reimburse expenses to the extent necessary to cap the Fund's Total Annual Fund Operating Expenses After Fee Waiver at the amounts shown above. Brokerage commissions, stamp duty fees, interest, taxes, acquired fund fees and expenses and extraordinary expenses are excluded from the cap. After this time, the cap may be increased or the commitment to maintain the cap may be terminated only with the approval of the Board of Trustees.

### Example of Expenses

The example below is intended to help you compare the costs of investing in the Fund with the costs of investing in other mutual funds. The example assumes a \$10,000 initial investment, 5% annual total return, and that operating expenses remain the same as in the tables above. The example also assumes that the Total Annual Fund Operating Expenses After Fee Waiver shown above will only be in place for the length of the current waiver commitment. Although your actual costs may be higher or lower, based on these assumptions your costs would be:

<b>After:</b>	
1 Year	\$31
3 Years	\$110
5 Years	\$196
10 Years	\$450

## Principal Investment Strategies

Under normal circumstances, we invest:

- exclusively in high-quality, short-term money market instruments; and
- at least 80% of the Fund's net assets are invested in municipal obligations that pay interest exempt from regular federal income tax, but not necessarily the federal alternative minimum tax ("AMT").

We may also invest:

- any amount in securities that pay interest subject to federal AMT.

We actively manage a portfolio of high-quality, short-term municipal obligations that are issued by or on behalf of states, territories and possessions of the U.S. or their political subdivisions and financing authorities. These investments may have fixed, floating, or variable rates of interest. We will only purchase First Tier securities.

We invest principally in municipal obligations that pay interest exempt from regular federal income tax, but not necessarily federal AMT. The Fund attempts to invest exclusively in these securities. However, the Fund may invest up to 20% of its net assets in high-quality, short-term money market instruments that pay interest subject to regular federal income tax. We may also invest any amount in securities that pay interest subject to federal AMT.

Our security selection is based on several factors, including credit quality, yield and maturity, while taking into account the Fund's overall level of liquidity and weighted average maturity.

## Principal Investment Risks

An investment in the Fund may lose money, is not a deposit of Wells Fargo Bank, N.A. or its affiliates, is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other governmental agency, and is primarily subject to the risks briefly summarized below.

**Debt Securities Risk.** The issuer of a debt security may fail to pay interest or principal when due, and the value of a debt security may decline if an issuer defaults or if its credit quality deteriorates. Changes in market interest rates may reduce the value of debt securities or reduce the Fund's returns.

**Issuer Risk.** The value of a security may decline because of adverse events or circumstances that directly relate to conditions at the issuer or any entity providing it credit or liquidity support.

**Management Risk.** There is no guarantee of the Fund's performance or that the Fund will meet its objective. The market value of your investment may decline and you may suffer investment loss.

**Market Risk.** The market price of securities owned by the Fund may rapidly or unpredictably decline due to factors affecting securities markets generally or particular industries.

**Money Market Fund Risk.** Although the Fund seeks to maintain the value of your investment at \$1.00 per share, there is no assurance that it will be able to do so, and it is possible to lose money by investing in the Fund.

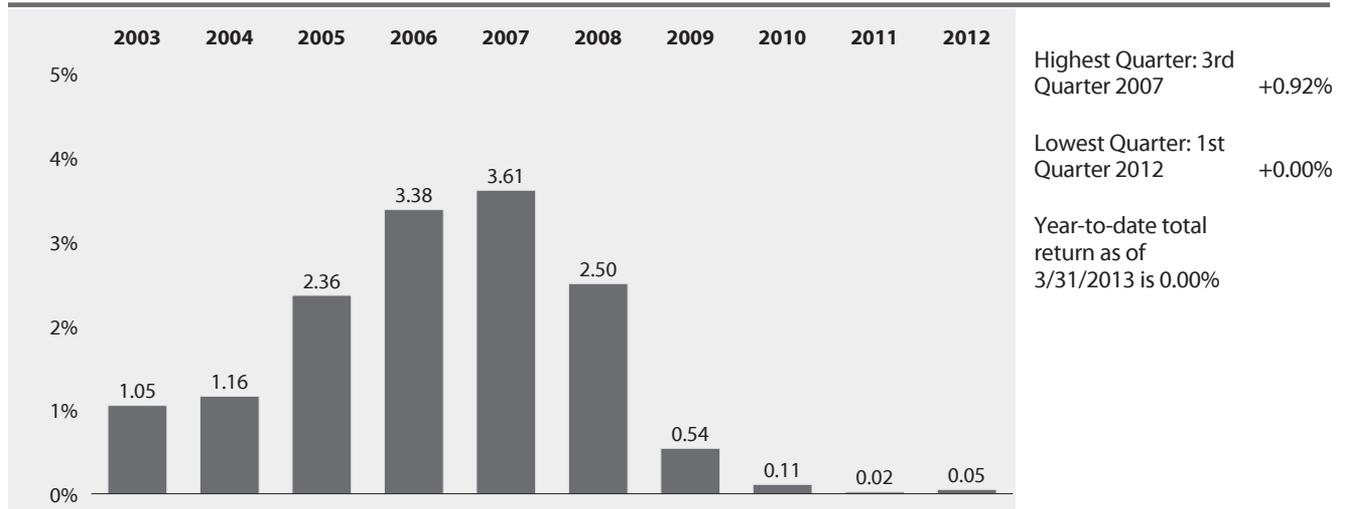

**Municipal Securities Risk.** Municipal securities rely on the creditworthiness or revenue production of their issuers or auxiliary credit enhancement features. The Fund may invest 25% or more of its total assets in municipal securities that are related in such a way that political, economic or business developments affecting one obligation would affect the others. Tax authorities are paying increased attention as to whether interest on municipal obligations is tax exempt, and we cannot assure you that a tax authority will not successfully challenge the exemption of a bond held by the Fund. The ongoing issues facing the national economy are negatively impacting the economic performance of many issuers of municipal securities, and may increase the likelihood that issuers of securities in which the Fund may invest may be unable to meet their obligations.

**Regulatory Risk.** Changes in government regulations may adversely affect the value of a security. An insufficiently regulated industry or market might also permit inappropriate practices that adversely affect an investment.

### Tax Information

The Fund's distributions normally consist of exempt-interest dividends, which are generally not taxable to you for federal income tax purposes, but may be subject to federal AMT. A portion of the Fund's distributions may not qualify as exempt-interest dividends; such distributions will generally be taxable to you as ordinary income or capital gains, unless you are investing through a tax-deferred arrangement, such as a 401(k) plan or an individual retirement account. However, subsequent withdrawals from such a tax advantaged investment plan may be subject to federal income tax. You should consult your tax adviser about your specific situation.

### Payments to Broker-Dealers and Other Financial Intermediaries

If you purchase a Fund through a broker-dealer or other financial intermediary (such as a bank), the Fund and its related companies may pay the intermediary for the sale of Fund shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend the Fund over another investment. Consult your salesperson or visit your financial intermediary's Web site for more information.

1 Year	\$36
3 Years	\$113
5 Years	\$197
10 Years	\$443

## Principal Investment Strategies

Under normal circumstances, we invest:

- exclusively in high-quality, short-term money market instruments that consist of U.S. Treasury obligations and repurchase agreements collateralized by U.S. Treasury obligations.

Our security selection is based on several factors, including credit quality, yield and maturity, while taking into account the Fund's overall level of liquidity and weighted average maturity.

## Principal Investment Risks

An investment in the Fund may lose money, is not a deposit of Wells Fargo Bank, N.A. or its affiliates, is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other governmental agency, and is primarily subject to the risks briefly summarized below.

**Counter-Party Risk.** A Fund may incur a loss if the other party to an investment contract, such as a derivative or a repurchase or reverse repurchase agreement, fails to fulfill its contractual obligation to the Fund.

**Debt Securities Risk.** The issuer of a debt security may fail to pay interest or principal when due, and the value of a debt security may decline if an issuer defaults or if its credit quality deteriorates. Changes in market interest rates may reduce the value of debt securities or reduce the Fund's returns.

**Issuer Risk.** The value of a security may decline because of adverse events or circumstances that directly relate to conditions at the issuer or any entity providing it credit or liquidity support.

**Management Risk.** There is no guarantee of the Fund's performance or that the Fund will meet its objective. The market value of your investment may decline and you may suffer investment loss.

**Market Risk.** The market price of securities owned by the Fund may rapidly or unpredictably decline due to factors affecting securities markets generally or particular industries.

**Money Market Fund Risk.** Although the Fund seeks to maintain the value of your investment at \$1.00 per share, there is no assurance that it will be able to do so, and it is possible to lose money by investing in the Fund.

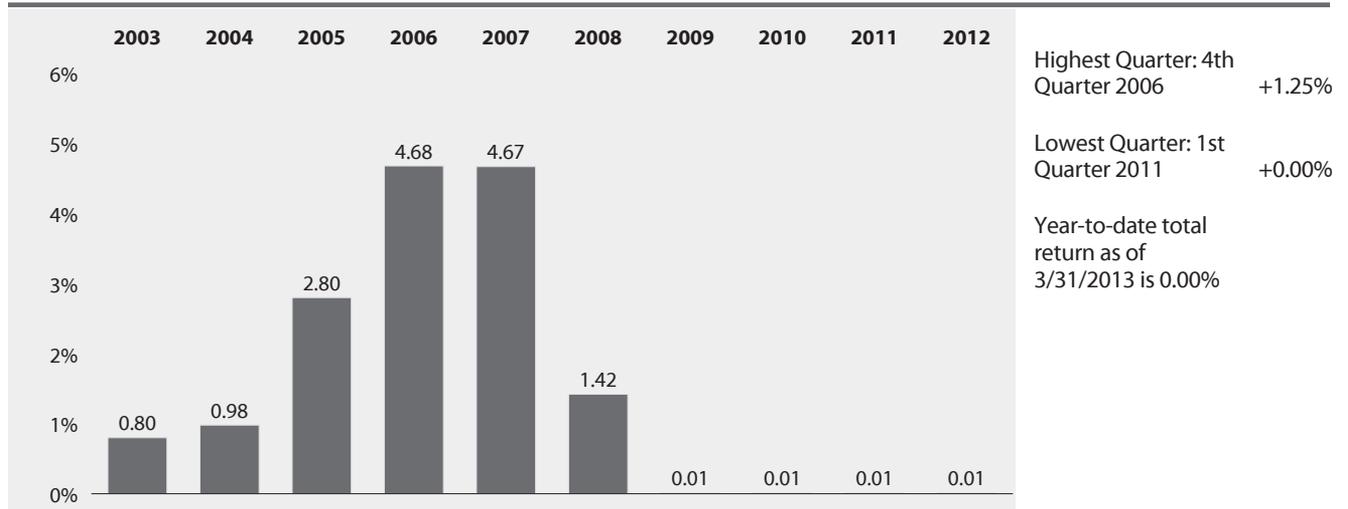

**Regulatory Risk.** Changes in government regulations may adversely affect the value of a security. An insufficiently regulated industry or market might also permit inappropriate practices that adversely affect an investment.

**U.S. Government Obligations Risk.** U.S. Government obligations may be adversely affected by changes in interest rates, a default by, or decline in the credit quality of, the U.S. Government, and may not be backed by the full faith and credit of the U.S. Government.

### Tax Information

Any distributions you receive from the Fund may be taxable as ordinary income or capital gains, except when your investment is in an IRA, 401(k) or other tax advantaged investment plan. However, subsequent withdrawals from such a tax advantaged investment plan may be subject to federal income tax. You should consult your tax adviser about your specific tax situation.

### Payments to Broker-Dealers and Other Financial Intermediaries

If you purchase a Fund through a broker-dealer or other financial intermediary (such as a bank), the Fund and its related companies may pay the intermediary for the sale of Fund shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend the Fund over another investment. Consult your salesperson or visit your financial intermediary's Web site for more information.

# Key Fund Information

---

This Prospectus contains information about certain Funds within the *Wells Fargo Advantage Funds*<sup>®</sup> family and is designed to provide you with important information to help you with your investment decisions. Please read it carefully and keep it for future reference.

In this Prospectus, "we" generally refers to Wells Fargo Funds Management, LLC (Funds Management) or the sub-adviser. "We" may also refer to the Funds' other service providers. "You" refers to the shareholder or potential investor.

---

## Investment Objective and Principal Investment Strategies

The investment objective of each Fund in this Prospectus is non-fundamental; that is, it can be changed by a vote of the Board of Trustees alone. The objective and strategies description for each Fund tells you what the Fund is trying to achieve;

- what the Fund is trying to achieve;
- how we intend to invest your money; and
- what makes the Fund different from the other Funds offered in this Prospectus.

This section also provides a summary of each Fund's principal investment policies and practices. Unless otherwise indicated, these investment policies and practices apply on an ongoing basis. Percentages of "the Fund's net assets" are measured as percentages of net assets plus borrowings for investment purposes. The investment policy of the Cash Investment Money Market Fund, Government Money Market Fund, Heritage Money Market Fund, Treasury Plus Money Market Fund and 100% Treasury Plus Money Market Fund disclosed in each Fund's "Principal Investments" section may be changed by the Board of Trustees without shareholder approval, but shareholders would be given at least 60 days notice. The investment policy of the California Municipal Money Market Fund, Municipal Cash Management Money Market Fund and National Tax-Free Money Market Fund concerning "80% of the Fund's net assets" may only be changed with shareholder approval.

---

## Principal Risk Factors

This section lists the principal risk factors for each Fund. A complete description of these and other risks is found in the "Description of Principal Investment Risks" section. It is possible to lose money by investing in a Fund.

---

### About Wells Fargo Advantage Money Market Funds

All Wells Fargo Advantage Money Market Funds seek to provide current income, while preserving capital and liquidity by investing in a portfolio of money market instruments. A Fund may have additional investment objectives or restrictions.

Money market instruments are high quality, short-term investments that present minimal credit risk and may include securities such as U.S. Government obligations, bank obligations, corporate bonds, commercial paper, municipal securities, asset- and mortgage-backed securities, and repurchase agreements. All Wells Fargo Advantage Money Market Funds are managed to meet the requirements of Rule 2a-7 under the Investment Company Act of 1940, which provides that:

- Each Fund will seek to maintain a net asset value of \$1.00 per share.
- Each Fund will only buy securities that have remaining maturities of 397 days or less as determined under Rule 2a-7.
- The dollar-weighted average maturity of each Fund will be 60 days or less.
- The dollar-weighted average final maturity of each Fund will be 120 days or less.
- Each Fund will invest only in U.S. dollar-denominated securities.
- Each Fund will value its assets based on the total market value of all of the securities it holds using the amortized cost method.

In order to obtain a rating from a rating organization, some Funds may observe additional investment restrictions.

Under normal circumstances, the Funds will invest the majority of their assets in First Tier Securities, consistent with Rule 2a-7.

# California Municipal Money Market Fund

<b>Adviser</b>	Wells Fargo Funds Management, LLC	
<b>Sub-Adviser</b>	Wells Capital Management Incorporated	
<b>Fund Inception:</b>	1/1/1992	
<b>Administrator Class</b>	Ticker: WCMXX	Fund Number: 3724

## Investment Objective

The Fund seeks current income exempt from regular federal income tax and California individual income tax, while preserving capital and liquidity.

## Principal Investment Strategies

Under normal circumstances, we invest:

- exclusively in high-quality, short-term money market instruments; and
- at least 80% of the Fund's net assets in municipal obligations that pay interest exempt from California individual income tax and regular federal income tax, but not necessarily the federal alternative minimum tax ("AMT").

We may also invest:

- any amount of the Fund's total assets in municipal obligations that pay interest subject to federal AMT.

We actively manage a portfolio of high-quality, short-term municipal obligations that are issued by or on behalf of the state of California, its cities, municipalities, political subdivisions and other public authorities. These investments may have fixed, floating, or variable rates of interest.

We may invest a portion of the Fund's total assets in the securities of territories and possessions of the U.S. or their political subdivisions and financing authorities that pay interest exempt from regular federal income tax and California individual income tax.

We invest principally in municipal obligations that pay interest exempt from California individual income tax and regular federal income tax, but not necessarily federal AMT. The Fund attempts to invest exclusively in municipal obligations that pay interest exempt from California individual income tax and regular federal income tax. However, the Fund may invest up to 20% of its net assets in high-quality, short-term money market instruments that pay interest subject to California individual income tax and regular federal income tax.

Our security selection is based on several factors, including credit quality, yield and maturity, while taking into account the Fund's overall level of liquidity and weighted average maturity.

The Fund may temporarily deviate from its principal investment strategies by investing its assets in high-quality, short-term money market instruments that pay interest subject to California individual income tax or regular federal income tax. Circumstances in which the Fund may invest in these securities include, but are not limited to, periods of low or no availability of eligible municipal obligations or in order to manage liquidity. If the Fund invests in taxable securities, it may distribute taxable income.

## Principal Risk Factors

The Fund is primarily subject to the risks mentioned below.

- California Municipal Securities Risk
- Debt Securities Risk
- Issuer Risk
- Management Risk
- Market Risk
- Money Market Fund Risk
- Municipal Securities Risk
- Regulatory Risk

These and other risks could cause you to lose money in your investment in the Fund and could adversely affect the Fund's net asset value, yield and total return. These risks are described in the "Description of Principal Investment Risks" section.

# Cash Investment Money Market Fund

<b>Adviser</b>	Wells Fargo Funds Management, LLC
<b>Sub-Adviser</b>	Wells Capital Management Incorporated
<b>Fund Inception:</b>	10/14/1987
<b>Administrator Class</b>	Ticker: WFAXX      Fund Number: 946

## Investment Objective

The Fund seeks current income, while preserving capital and liquidity.

## Principal Investment Strategies

Under normal circumstances, we invest:

- exclusively in high-quality, short-term, U.S. dollar-denominated money market instruments of domestic and foreign issuers.

These instruments include, but are not limited to, bank obligations such as time deposits and certificates of deposit, government securities, asset-backed securities, commercial paper, corporate bonds, municipal securities and repurchase agreements. These investments may have fixed, floating, or variable rates of interest and may be obligations of U.S. or foreign issuers. We may invest more than 25% of the Fund's total assets in U.S. dollar-denominated obligations of U.S. banks. We will only purchase First Tier securities.

Our security selection is based on several factors, including credit quality, yield and maturity, while taking into account the Fund's overall level of liquidity and weighted average maturity.

## Principal Risk Factors

The Fund is primarily subject to the risks mentioned below.

- Counter-Party Risk
- Debt Securities Risk
- Foreign Investment Risk
- Issuer Risk
- Management Risk
- Market Risk
- Money Market Fund Risk
- Municipal Securities Risk
- Regulatory Risk
- U.S. Government Obligations Risk

These and other risks could cause you to lose money in your investment in the Fund and could adversely affect the Fund's net asset value, yield and total return. These risks are described in the "Description of Principal Investment Risks" section.

# Government Money Market Fund

<b>Adviser</b>	Wells Fargo Funds Management, LLC	
<b>Sub-Adviser</b>	Wells Capital Management Incorporated	
<b>Fund Inception:</b>	11/16/1987	
<b>Administrator Class</b>	Ticker: WGAXX	Fund Number: 947

## Investment Objective

The Fund seeks current income, while preserving capital and liquidity.

## Principal Investment Strategies

Under normal circumstances, we invest:

- exclusively in high-quality, short-term money market instruments that consist of U.S. Government obligations and repurchase agreements collateralized by U.S. Government obligations.

These investments may have fixed, floating, or variable rates of interest.

Our security selection is based on several factors, including credit quality, yield and maturity, while taking into account the Fund's overall level of liquidity and weighted average maturity.

The Fund may temporarily deviate from its principal investment strategies by holding a portion of its assets in cash, which may negatively impact the Fund's performance.

## Principal Risk Factors

The Fund is primarily subject to the risks mentioned below.

- Counter-Party Risk
- Debt Securities Risk
- Issuer Risk
- Management Risk
- Market Risk
- Money Market Fund Risk
- Regulatory Risk
- U.S. Government Obligations Risk

These and other risks could cause you to lose money in your investment in the Fund and could adversely affect the Fund's net asset value, yield and total return. These risks are described in the "Description of Principal Investment Risks" section.

# Heritage Money Market Fund

<b>Adviser</b>	Wells Fargo Funds Management, LLC		
<b>Sub-Adviser</b>	Wells Capital Management Incorporated		
<b>Fund Inception:</b>	6/29/1995		
<b>Administrator Class</b>	Ticker: SHMXX	Fund Number: 3229	

## Investment Objective

The Fund seeks current income, while preserving capital and liquidity.

## Principal Investment Strategies

Under normal circumstances, we invest:

- exclusively in high-quality, short-term, U.S. dollar-denominated money market instruments of domestic and foreign issuers.

These instruments include, but are not limited to, bank obligations such as time deposits and certificates of deposit, government securities, asset-backed securities, commercial paper, corporate bonds, municipal securities and repurchase agreements. These investments may have fixed, floating, or variable rates of interest and may be obligations of U.S. or foreign issuers. We may invest more than 25% of the Fund's total assets in U.S. dollar-denominated obligations of U.S. banks. We will only purchase First Tier securities.

Our security selection is based on several factors, including credit quality, yield and maturity, while taking into account the Fund's overall level of liquidity and weighted average maturity.

## Principal Risk Factors

The Fund is primarily subject to the risks mentioned below.

- Counter-Party Risk
- Debt Securities Risk
- Foreign Investment Risk
- Issuer Risk
- Management Risk
- Market Risk
- Money Market Fund Risk
- Municipal Securities Risk
- Regulatory Risk
- U.S. Government Obligations Risk

These and other risks could cause you to lose money in your investment in the Fund and could adversely affect the Fund's net asset value, yield and total return. These risks are described in the "Description of Principal Investment Risks" section.

# Municipal Cash Management Money Market Fund

<b>Adviser</b>	Wells Fargo Funds Management, LLC	
<b>Sub-Adviser</b>	Wells Capital Management Incorporated	
<b>Fund Inception:</b>	11/20/1996	
<b>Administrator Class</b>	Ticker: WUCXX	Fund Number: 3725

## Investment Objective

The Fund seeks current income exempt from regular federal income tax, while preserving capital and liquidity.

## Principal Investment Strategies

Under normal circumstances, we invest:

- exclusively in high-quality, short-term money market instruments; and
- at least 80% of the Fund's net assets are invested in municipal obligations that pay interest exempt from regular federal income tax, but not necessarily the federal alternative minimum tax ("AMT").

We may also invest:

- any amount in securities that pay interest subject to federal AMT.

We actively manage a portfolio of high-quality, short-term municipal obligations that are issued by or on behalf of states, territories and possessions of the U.S. or their political subdivisions and financing authorities. These investments may have fixed, floating, or variable rates of interest. We will only purchase First Tier securities.

We invest principally in municipal obligations that pay interest exempt from regular federal income tax, but not necessarily federal AMT. The Fund attempts to invest exclusively in these securities. However, the Fund may invest up to 20% of its net assets in high-quality, short-term money market instruments that pay interest subject to regular federal income tax. We may also invest any amount in securities that pay interest subject to federal AMT.

- Regulatory Risk
- U.S. Government Obligations Risk

These and other risks could cause you to lose money in your investment in the Fund and could adversely affect the Fund's net asset value, yield and total return. These risks are described in the "Description of Principal Investment Risks" section.

# Description of Principal Investment Risks

---

Understanding the risks involved in mutual fund investing will help you make an informed decision that takes into account your risk tolerance and preferences. The factors that are most likely to have a material effect on a particular Fund as a whole are called "principal risks." The principal risks for each Fund have been previously identified and are described below. Additional information about the principal risks is included in the Statement of Additional Information.

## **California Municipal Securities Risk**

Events in California are likely to affect a Fund's investments in California municipal securities. Although California has a larger and more diverse economy than most other states, its economy continues to be driven by, among other industries, agriculture, tourism, housing and construction, high technology and manufacturing. A downturn in any one industry may have a disproportionate impact on California municipal securities. The State of California may experience economic, budgetary and financial stress, resulting in weakened economic and revenue performance for the State and its agencies or municipalities and downgrades to the credit ratings of the State's general obligation debt. Economic and financial problems experienced by the State and its local governments could also negatively impact the ability of the issuers to meet their obligations, and the value and liquidity of California municipal securities. In particular, State-level budgetary and cash flow problems may adversely impact the liquidity and values of certain securities in which the Fund invests that have exposure to State-level general obligations.

## **Counter-Party Risk**

When a Fund enters into an investment contract, such as a derivative or a repurchase or reverse repurchase agreement, the Fund is exposed to the risk that the other party will not fulfill its contractual obligations. For example, in a repurchase agreement, there exists the risk that where the Fund buys a security from a seller that agrees to repurchase the security at an agreed upon price and time, the seller will not repurchase the security. Similarly, the Fund is exposed to counter-party risk if it engages in a reverse repurchase agreement where a broker-dealer agrees to buy securities and the Fund agrees to repurchase them at a later date.

## **Debt Securities Risk**

Debt securities, such as notes and bonds, are subject to credit risk and interest rate risk. Credit risk is the possibility that an issuer or credit support provider of an instrument will be unable to make interest payments or repay principal when due, and that the value of a debt security may decline if an issuer defaults or if its credit quality deteriorates. Changes in the financial strength of an issuer or credit support provider or changes in the credit rating of a security may affect its value. Interest rate risk is the risk that market interest rates may increase, which tends to reduce the resale value of certain debt securities, including U.S. Government obligations. Debt securities with longer durations are generally more sensitive to interest rate changes than those with shorter durations. Interest rates have remained at historical lows for an extended period of time. If interest rates rise quickly, it may have a pronounced negative effect on the value of certain debt securities. Changes in market interest rates do not affect the rate payable on an existing debt security, unless the instrument has adjustable or variable rate features, which can reduce its exposure to interest rate risk. Changes in market interest rates may also extend or shorten the duration of certain types of instruments, such as asset-backed securities, thereby affecting their value and returns. Debt securities may also have, or become subject to, liquidity constraints.

## **Foreign Investment Risk**

Foreign investments are subject to more risks than U.S. domestic investments. These additional risks may potentially include lower liquidity, greater price volatility and risks related to adverse political, regulatory, market or economic developments. Foreign companies also may be subject to significantly higher levels of taxation than U.S. companies, including potentially confiscatory levels of taxation, thereby reducing the earnings potential of such foreign companies. In addition, amounts realized on sales or distributions of foreign securities may be subject to high and potentially confiscatory levels of foreign taxation and withholding when compared to comparable transactions in U.S. securities. Foreign investments are also subject to risks including potentially higher withholding and other taxes, trade settlement, custodial, and other operational risks and less stringent investor protection and disclosure standards in certain foreign markets. In addition, foreign markets can and often do perform differently from U.S. markets.

## **Issuer Risk**

The value of a security may decline for a number of reasons that directly relate to the issuer or an entity providing credit support or liquidity support, such as management performance, financial leverage, and reduced demand for the issuer's goods, services or securities.

**Management Risk**

We cannot guarantee that a Fund will meet its investment objective. We do not guarantee the performance of a Fund, nor can we assure you that the market value of your investment will not decline. We will not "make good" on any investment loss you may suffer, nor does anyone we contract with to provide services promise to make good on any such losses.

**Market Risk**

The market price of securities owned by a Fund may go up or down, sometimes rapidly or unpredictably. Securities may decline in value or become illiquid due to factors affecting securities markets generally or particular industries represented in the securities markets, such as labor shortages or increased production costs and competitive conditions within an industry. A security may decline in value or become illiquid due to general market conditions which are not specifically related to a particular company, such as real or perceived adverse economic conditions, changes in the general outlook for corporate earnings, changes in interest or currency rates, or adverse investor sentiment generally. During a general downturn in the securities markets, multiple asset classes may decline in value or become illiquid simultaneously. Equity securities generally have greater price volatility than debt securities.

**Money Market Fund Risk**

Although each Fund seeks to maintain the value of your investment at \$1.00 per share, there is no assurance that it will be able to do so, and it is possible to lose money by investing in a Fund. Generally, short-term funds such as money market funds do not earn as high a level of income as funds that invest in longer-term instruments. Because the Funds invest in short-term instruments, the Funds' dividend yields may be low when short-term market interest rates are low.

**Municipal Securities Risk**

Municipal securities rely on the creditworthiness or revenue production of their issuers or auxiliary credit enhancement features. Municipal securities may be difficult to obtain because of limited supply, which may increase the cost of such securities and effectively reduce a portfolio's yield. Typically, less information is available about a municipal issuer than is available for other types of securities issuers. Each Fund may invest 25% or more of its total assets in municipal securities that are related in such a way that political, economic or business developments affecting one obligation would affect the others. For example, a Fund may own different obligations that pay interest based on the revenue of similar projects. In addition, certain municipal securities are special revenue obligations, which are payable from revenue generated by a particular project or other revenue source. Investors can look only to the revenue generated by the project or other revenue source rather than the revenue of a state or local government authority. Although a Fund may strive to invest in municipal securities and other securities with interest that is exempt from certain taxes (i.e. federal, federal alternative minimum tax and/or state taxes as applicable), some income earned by Fund investments may be subject to such taxes. Each Fund takes advantage of tax laws that allow the income from certain investments to be exempted from federal income tax and, in some cases, state individual income tax. Tax authorities are paying increased attention to whether interest on municipal obligations is exempt from taxation, and we cannot assure you that a tax authority will not successfully challenge the exemption of a bond held by each Fund. Capital gains, whether declared by a Fund or realized by the shareholder through the selling of Fund shares, are generally taxable. The ongoing issues facing the national economy are broadly and negatively impacting the economic and revenue performance of many states and their agencies and municipalities and the revenue production of certain issuers of municipal securities. These factors in turn may increase the likelihood that issuers of securities in which each Fund may invest will be unable to meet their obligations, that the values of securities in which each Fund invests will decline significantly, and that the liquidity of such securities will be impaired.

**Regulatory Risk**

Changes in government regulations may adversely affect the value of a security. An insufficiently regulated industry or market might also permit inappropriate practices that adversely affect an investment. Changes in government regulations may adversely affect the value of a security. An insufficiently regulated market might also permit inappropriate practices that adversely affect an investment.

**U.S. Government Obligations Risk**

U.S. Government obligations include securities issued by the U.S. Treasury, U.S. Government agencies or government sponsored entities. While U.S. Treasury obligations are backed by the "full faith and credit" of the U.S. Government, securities issued by U.S. Government agencies or government-sponsored entities may not be backed by the full faith and credit of the U.S. Government. The Government National Mortgage Association ("GNMA"), a wholly owned U.S. Government corporation, is authorized to guarantee, with the full faith and credit of the U.S. Government, the timely payment of principal and interest on securities issued by institutions approved by GNMA and backed by pools of mortgages insured by the Federal Housing Administration or the Department of Veterans Affairs. Government-sponsored entities (whose obligations are not backed by the full faith and credit of the U.S. Government) include the Federal

National Mortgage Association ("FNMA") and the Federal Home Loan Mortgage Corporation ("FHLMC"). Pass-through securities issued by FNMA are guaranteed as to timely payment of principal and interest by FNMA but are not backed by the full faith and credit of the U.S. Government. FHLMC guarantees the timely payment of interest and ultimate collection or scheduled payment of principal, but its participation certificates are not backed by the full faith and credit of the U.S. Government. If a government-sponsored entity is negatively impacted by legislative or regulatory action, is unable to meet its obligations, or its creditworthiness declines, the performance of a Fund that holds securities issued or guaranteed by the entity will be adversely impacted. U.S. Government obligations are subject to relatively low but varying degrees of credit risk, and are still subject to interest rate and market risk. U.S. Government obligations may be adversely affected by a default by, or decline in the credit quality of, the U.S. Government.

## Portfolio Holdings Information

---

A description of the *Wells Fargo Advantage Funds'* policies and procedures with respect to disclosure of the *Wells Fargo Advantage Funds'* portfolio holdings is available in the Funds' Statement of Additional Information. In addition, Funds Management will, from time to time, include portfolio holdings information in periodic commentaries for certain Funds. The substance of the information contained in such commentaries will also be posted to the Funds' Web site at [wellsfargoadvantagefunds.com](http://wellsfargoadvantagefunds.com).

# Organization and Management of the Funds

## About Wells Fargo Funds Trust

The Trust was organized as a Delaware statutory trust on March 10, 1999. The Board of Trustees of the Trust ("Board") supervises each Fund's activities, monitors its contractual arrangements with various service providers and decides on matters of general policy.

The Board supervises the Funds and approves the selection of various companies hired to manage the Funds' operations. Except for the Funds' advisers, which generally may be changed only with shareholder approval, other service providers may be changed by the Board without shareholder approval.

## The Adviser

Wells Fargo Funds Management, LLC, headquartered at 525 Market Street, San Francisco, CA 94105, serves as adviser for the Funds. Funds Management is a wholly owned subsidiary of Wells Fargo & Company, a publicly traded diversified financial services company that provides banking, insurance, investment, mortgage and consumer finance services. Funds Management is a registered investment adviser that provides investment advisory services for registered mutual funds, closed-end funds and other funds and accounts.

As adviser, Funds Management is responsible for implementing the investment objectives and strategies of the Funds. To assist Funds Management in performing these responsibilities, Funds Management has contracted with one or more subadvisers to provide day-to-day portfolio management services to the Funds. Funds Management employs a team of investment professionals who identify and recommend the initial hiring of each Fund's sub-adviser(s) and supervise and monitor the activities of the sub-adviser(s) on an ongoing basis. Funds Management retains overall responsibility for the management of the Funds.

Funds Management's investment professionals review and analyze each Fund's performance, including relative to peer funds, and monitor each Fund's compliance with its investment objective and strategies. Funds Management is responsible for reporting to the Board on investment performance and other matters affecting the Funds. When appropriate, Funds Management recommends to the Board enhancements to Fund features, including changes to Fund investment objectives, strategies and policies. Funds Management also communicates with shareholders and intermediaries about Fund performance and features.

For providing these advisory services, Funds Management is entitled to receive the fees disclosed in the row captioned "Management Fees" in each Fund's table of Annual Fund Operating Expenses. Funds Management compensates each sub-adviser from the fees Funds Management receives for its services as adviser to the Funds. A discussion regarding the basis for the Board's approval of the advisory and sub-advisory agreements for the Funds is available in those Funds' respective semi-annual reports for the six-month period ended July 30th.

For the Funds' most recent fiscal year end, the advisory fee paid to Funds Management, net of any applicable waivers and reimbursements, was as follows:

### Advisory Fees Paid

	As a % of average daily net assets
California Municipal Money Market Fund	0.00%
Cash Investment Money Market Fund	0.03%
Government Money Market Fund	0.00%
Heritage Money Market Fund	0.05%
Municipal Cash Management Money Market Fund	0.04%
National Tax-Free Money Market Fund	0.00%
Treasury Plus Money Market Fund	0.00%
100% Treasury Money Market Fund	0.00%

## **The Sub-Adviser**

The following sub-adviser provides day-to-day portfolio management services to the Funds. These services include making purchases and sales of securities and other investment assets for the Funds, selecting broker-dealers, negotiating brokerage commission rates and maintaining portfolio transaction records. The sub-adviser is compensated for its services by Funds Management from the fees Funds Management receives for its services as adviser to the Funds.

**Wells Capital Management Incorporated** ("Wells Capital Management"), a registered investment adviser located at 525 Market Street, San Francisco, CA 94105, serves as a sub-adviser and provides portfolio management services to one or more Funds. Wells Capital Management, an affiliate of Funds Management and indirect wholly owned subsidiary of Wells Fargo & Company, is a multi-boutique asset management firm committed to delivering superior investment services to institutional clients.

## **Dormant Multi-Manager Arrangement**

The Board has adopted a "multi-manager" arrangement for the Heritage Money Market Fund, Municipal Cash Management Money Market Fund and National Tax-Free Money Market Fund. Under this arrangement, each Fund and Funds Management may engage one or more subadvisers to make day-to-day investment decisions for the Fund's assets. Funds Management would retain ultimate responsibility (subject to the oversight of the Board) for overseeing the sub-advisers and may, at times, recommend to the Board that the Fund: (1) change, add or terminate one or more sub-advisers; (2) continue to retain a sub-adviser even though the sub-adviser's ownership or corporate structure has changed; or (3) materially change a subadvisory agreement with a sub-adviser.

Applicable law generally requires a Fund to obtain shareholder approval for most of these types of recommendations, even if the Board approves the proposed action. Under the "multi-manager" arrangement approved by the Board, the Fund will seek exemptive relief, if necessary, from the SEC to permit Funds Management (subject to the Board's oversight and approval) to make decisions about the Fund's sub-advisory arrangements without obtaining shareholder approval. There is no guarantee the SEC would grant such exemptive relief. The Fund will continue to submit matters to shareholders for their approval to the extent required by applicable law.

Meanwhile, this multi-manager arrangement will remain dormant and will not be implemented until shareholders are further notified.

# Compensation to Dealers and Shareholder Servicing Agents

---

## Shareholder Servicing Plan

The Funds have a shareholder servicing plan. Under this plan, each Fund has agreements with various shareholder servicing agents to process purchase and redemption requests, to service shareholder accounts, and to provide other related services. For these services, each Fund pays an annual fee of up to 0.10% of its average daily net assets for its Administrator Class shares. Selling or shareholder servicing agents, in turn, may pay some or all of these amounts to their employees or registered representatives who recommend or sell Fund shares or make investment decisions on behalf of their clients.

## Additional Payments to Dealers

In addition to dealer reallowances and payments made by each Fund for distribution and shareholder servicing, the Fund's adviser, the distributor or their affiliates make additional payments ("Additional Payments") to certain selling or shareholder servicing agents for the Fund, which include broker-dealers and 401(k) service providers and recordkeepers. These Additional Payments are made in connection with the sale and distribution of shares of the Fund or for services to the Fund and its shareholders. These Additional Payments, which may be significant, are paid by the Fund's adviser, the distributor or their affiliates, out of their revenues, which generally come directly or indirectly from fees paid by the entire Fund complex.

In return for these Additional Payments, the Funds' adviser and distributor expect the Funds to receive certain marketing or servicing advantages that are not generally available to mutual funds that do not make such payments. Such advantages are expected to include, without limitation, placement of the Fund on a list of mutual funds offered as investment options to the selling agent's clients (sometimes referred to as "Shelf Space"); access to the selling agent's registered representatives; and/or ability to assist in training and educating the selling agent's registered representatives.

Certain selling or shareholder servicing agents receive these Additional Payments to supplement amounts payable by the Fund under the shareholder servicing plans. In exchange, these agents provide services including, but not limited to, establishing and maintaining accounts and records; answering inquiries regarding purchases, exchanges and redemptions; processing and verifying purchase, redemption and exchange transactions; furnishing account statements and confirmations of transactions; processing and mailing monthly statements, prospectuses, shareholder reports and other SEC-required communications; and providing the types of services that might typically be provided by each Fund's transfer agent (e.g., the maintenance of omnibus or omnibus-like accounts, the use of the National Securities Clearing Corporation for the transmission of transaction information and the transmission of shareholder mailings).

The Additional Payments may create potential conflicts of interest between an investor and a selling agent who is recommending a particular mutual fund over other mutual funds. Before investing, you should consult with your financial consultant and review carefully any disclosure by the selling agent as to what monies they receive from mutual fund advisers and distributors, as well as how your financial consultant is compensated.

The Additional Payments are typically paid in fixed dollar amounts, or based on the number of customer accounts maintained by the selling or shareholder servicing agent, or based on a percentage of sales and/or assets under management, or a combination of the above. The Additional Payments are either up-front or ongoing or both. The Additional Payments differ among selling and shareholder servicing agents. Additional Payments to a selling agent that is compensated based on its customers' assets typically range between 0.05% and 0.30% in a given year of assets invested in the Fund by the selling agent's customers. Additional Payments to a selling agent that is compensated based on a percentage of sales typically range between 0.10% and 0.15% of the gross sales of the Fund attributable to the selling agent. In addition, representatives of the Funds' distributor visit selling agents on a regular basis to educate their registered representatives and to encourage the sale of Fund shares. The costs associated with such visits may be paid for by the Fund's adviser, distributor, or their affiliates, subject to applicable FINRA regulations.

More information on the FINRA member firms that have received the Additional Payments described in this section is available in the Statement of Additional Information, which is on file with the SEC and is also available on the *Wells Fargo Advantage Funds* website at [wellsfargoadvantagefunds.com](http://wellsfargoadvantagefunds.com).

# Pricing Fund Shares

The share price (net asset value per share or NAV) for a Fund is calculated each business day. To calculate a Fund's NAV, the Fund's assets are valued and totaled, liabilities are subtracted, and the balance, called net assets, is divided by the number of shares outstanding.

We calculate the NAV at the following times each business day for the purpose of accepting purchase orders and redemption requests:

<b>Cash Investment Money Market Fund</b> <b>Government Money Market Fund</b> <b>Heritage Money Market Fund</b> <b>Treasury Plus Money Market Fund</b>	9:00a.m., 10:00a.m., 12:00p.m., 2:00p.m., 3:00p.m., 4:00p.m. and 5:00p.m. (ET)
<b>California Municipal Money Market Fund</b> <b>Municipal Cash Management Money Market Fund</b> <b>National Tax-Free Money Market Fund</b>	9:00a.m., 10:00a.m., 12:00p.m. and 4:00p.m. (ET)
<b>100% Treasury Money Market Fund</b>	9:00a.m., 10:00a.m., 12:00p.m., 1:00p.m., and 4:00p.m. (ET)

Generally, the NAV is not calculated, and purchase and redemption orders are not accepted, on days that the New York Stock Exchange ("NYSE") is closed; however, the Funds may elect to remain open even on days that the NYSE is closed, if the Securities Industry and Financial Markets Association ("SIFMA") recommends that the bond markets remain open. If the markets close early or if SIFMA recommends that the markets close early, the Funds may close early and may value their shares at earlier times under these circumstances. An order will be priced at the next NAV calculated after the order is received in proper form by the Fund's transfer agent. In the case of exchange orders, the exchange order is deemed to be a request for the redemption of shares of one fund and for the purchase of shares of the other fund, each to be processed at the next time when both funds calculate their NAVs at the same time, which will generally be at 4:00 p.m. Eastern Time. Information on the timing of dividend accrual and settlement in connection with a purchase or a redemption of shares is referenced in the How to Buy Shares and How to Sell Shares sections on the following pages.

Each Fund's assets are valued using the amortized cost method, in accordance with Rule 2a-7 under the 1940 Act. Portfolio securities are valued at their acquisition cost, adjusted for discounts or premiums reflected in their purchase price. This method of valuation is designed to enable each Fund to price its shares at \$1.00 per share, although each Fund's share price may deviate from \$1.00 per share.

The Board has established procedures designed to monitor each Fund's price per share. Funds Management will report to the Board any deviations of more than 0.25% from the Fund's net asset value using the market-to-market valuation method. In the event that the Board determines that a deviation exists that may result in material dilution or other unfair results to shareholders, the Fund will take such corrective action as it deems necessary, including, but not limited to, establishing a net asset value per share (of less than or more than \$1.00) solely by using available market quotations or considering suspending redemption of shares and liquidating the Fund under Rule 22e-3 under the 1940 Act. See the Statement of Additional Information for further disclosure.

# How to Buy Shares

Administrator Class shares are generally available through financial intermediaries for the accounts of their customers and directly to institutional investors and individuals. Institutional investors may include corporations; private banks and trust companies; endowments and foundations; defined contribution, defined benefit and other employer sponsored retirement plans; institutional retirement plan platforms; insurance companies; registered investment advisor firms; bank trusts; 529 college savings plans; family offices; and fund of funds including those managed by Funds Management. The following investors may purchase Administrator Class shares without investing a minimum initial investment amount, except as noted below:

- Employee benefit plan programs;
- Broker-dealer managed account or wrap programs that charge an asset-based fee;
- Registered investment adviser mutual fund wrap programs that charge an asset-based fee;
- Private bank and trust company managed account or wrap programs that charge an asset-based fee;
- Internal Revenue Code Section 529 college savings plan accounts;
- Fund of Funds including those advised by Funds Management;
- Investment Management and Trust Departments of Wells Fargo purchasing shares on behalf of their clients;
- Money market trading platforms;
- Any other institutions or customers of financial intermediaries who invest a minimum initial investment amount of \$1 million in a Fund;
- Individual investors who invest a minimum initial investment amount of \$1 million directly with a Fund; and
- Certain investors and related accounts as detailed in the Fund's Statement of Additional Information.

Any of the minimum initial investment amount waivers listed above may be modified or discontinued at any time.

The Fund offers other classes of shares in addition to those offered through this Prospectus. You may be eligible to invest in one or more of these other classes of shares. Each of the Fund's share classes bears varying expenses and may differ in other features. Consult your financial intermediary or advisor for more information regarding the Fund's available share classes.

Institutions Purchasing Shares Directly	Opening an Account	Adding to an Account
By Telephone or Internet	A new account may not be opened by telephone or internet unless the institution has another Wells Fargo Advantage Fund account. If the institution does not currently have an account, contact your investment representative. ## General Notes For Buying Shares

- **Proper Form.** If the transfer agent receives your new account application or purchase request in proper form before the close of the NYSE, your transaction will be priced at that day's NAV. If your new account application or purchase request is received in proper form after the close of trading on the NYSE, your transaction will be priced at the next business day's NAV. If your new account application or purchase request is not in proper form, additional documentation may be required to process your transaction.
- **U.S. Dollars Only.** All payment must be made in U.S. dollars and all checks must be drawn on U.S. banks.
- **Right to Refuse an Order.** We reserve the right to refuse or cancel a purchase or exchange order for any reason, including if we believe that doing so would be in the best interests of a Fund and its shareholders.
- **Earnings Distributions.** Assuming the purchase amount is received by the Fund's custodian no later than the close of the Federal Funds Wire, which is normally 6:00p.m. (ET), dividends will accrue as follows:

If a Proper Order is Received:	Dividends Begin to Accrue:
<b>California Municipal Money Market Fund Municipal Cash Management Money Market Fund National Tax-Free Money Market Fund</b>	
■ By 12:00 p.m. (ET)	Same Business Day
■ After 12:00 p.m. (ET)	Next Business Day
<b>100% Treasury Money Market Fund</b>	
■ By 1:00 p.m. (ET)	Same Business Day
■ After 1:00 p.m. (ET)	Next Business Day
<b>Cash Investment Money Market Fund Government Money Market Fund Heritage Money Market Fund Treasury Plus Money Market Fund</b>	
■ By 5:00 p.m. (ET)	Same Business Day
■ After 5:00 p.m. (ET)	Next Business Day

## Special Considerations When Investing Through Financial Intermediaries:

If a financial intermediary purchases Administrator Class shares on your behalf, you should understand the following:

- **Minimum Investments and Other Terms of Your Account.** Share purchases are made through a customer account at your financial intermediary following that firm's terms. Financial intermediaries may require different minimum investment amounts. Please consult an account representative from your financial intermediary for specifics.
- **Records are Held in Financial Intermediary's Name.** Financial intermediaries are usually the holders of record for Administrator Class shares held through their customer accounts. The financial intermediaries maintain records reflecting their customers' beneficial ownership of the shares.
- **Purchase/Redemption Orders.** Financial intermediaries are responsible for transmitting their customers' purchase and redemption orders to a Fund and for delivering required payment on a timely basis.
- **Shareholder Communications.** Financial intermediaries are responsible for delivering shareholder communications and voting information from a Fund, and for transmitting shareholder voting instructions to a Fund.

The information provided in this Prospectus is not intended for distribution to, or use by, any person or entity in any non-U.S. jurisdiction or country where such distribution or use would be contrary to law or regulation, or which would subject Fund shares to any registration requirement within such jurisdiction or country.

The Funds are distributed by Wells Fargo Funds Distributor, LLC, a member of FINRA/SIPC, and an affiliate of Wells Fargo & Company. Securities Investor Protection Corporation ("SIPC") information and brochure are available at [SIPC.org](http://SIPC.org) or by calling SIPC at (202) 371-8300.

# How to Sell Shares

The following section explains how you can sell shares held directly through an account with *Wells Fargo Advantage Funds*. For Fund shares held through brokerage or other types of accounts, please consult your selling agent.

Institutions Selling Shares Directly	To Sell Some or All of Your Shares
By Telephone / Electronic Funds Transfer (EFT)	<ul style="list-style-type: none"> <li>■ To speak with an investor services representative call 1-800-222-8222 or use the automated phone system at 1-800-368-7550.</li> <li>■ Redemptions processed by EFT to a linked Wells Fargo Bank account occur same day for Wells Fargo Advantage money market funds, and next day for all other <i>Wells Fargo Advantage Funds</i>.</li> <li>■ Transfers made to a Wells Fargo Bank account are made available sooner than transfers to an unaffiliated institution.</li> <li>■ Redemptions to any other linked bank account may post in two business days, please check with your financial institution for funds posting and availability.</li> </ul> <p><b>Note:</b> Telephone transactions such as redemption requests made over the phone generally require only one of the account owners to call unless you have instructed us otherwise.</p>
By Wire	<ul style="list-style-type: none"> <li>■ To arrange for a Federal Funds wire, call 1-800-222-8222.</li> <li>■ Be prepared to provide information on the commercial bank that is a member of the Federal Reserve wire system.</li> <li>■ Redemption proceeds are usually wired to the financial intermediary the following business day.</li> </ul>

Through Your Investment Representative	Contact your investment representative.

## General Notes For Selling Shares

- **Proper Form.** We will process requests to sell shares at the next NAV calculated after a request in proper form is received by the transfer agent.
- **Right to Delay Payment.** For the California Municipal Money Market Fund, Municipal Cash Management Money Market Fund, National Tax-Free Money Market Fund and the 100% Treasury Money Market Fund, we can delay the payment of a redemption for up to seven days. We may delay the payment of a redemption for longer than seven days under extraordinary circumstances. For the Cash Investment Money Market Fund, Government Money Market Fund, Heritage Money Market Fund and Treasury Plus Money Market Fund, we can delay the payment of a redemption for longer than one day if there is a non-routine closure of the Fedwire or Federal Reserve Bank or under extraordinary circumstances.

We normally will send out checks within one business day, and in any event no more than seven days, after we accept your request to redeem. If you redeem shares recently purchased by check or through EFT, you may be required to wait up to seven business days before we will send your redemption proceeds. Our ability to determine with reasonable certainty that investments have been finally collected is greater for investments coming from accounts with banks affiliated with Funds Management than it is for investments coming from accounts with unaffiliated banks. Redemption payments also may be delayed under extraordinary circumstances or as permitted by the SEC in order to protect remaining shareholders.

Under the extraordinary circumstances discussed under Section 22(e) under the Investment Company Act of 1940, as amended, we may suspend the right of redemption or postpone the date of payment of a redemption for longer than one day for the Cash Investment Money Market Fund, Government Money Market Fund, Heritage Money Market Fund and Treasury Plus Money Market Fund, and for longer than seven days for the California Municipal Money Market Fund, Municipal Cash Management Money Market Fund, National Tax-Free Money Market Fund and the 100% Treasury Plus Money Market Fund. Generally, those extraordinary circumstances are when: (i) the New York Stock Exchange is closed or trading thereon is restricted; (ii) an emergency exists which makes the disposal by a Fund of securities it owns, or the fair determination of the value of the Fund's net assets not reasonable practical; or (iii) the SEC, by order, permits the suspension of the right of redemption for the protection of shareholders.

- **Redemption in Kind.** Although generally we pay redemption requests in cash, we reserve the right to determine in our sole discretion, whether to satisfy redemption requests by making payment in securities (known as a redemption in

kind). In such case, we may pay all or part of the redemption in securities of equal value as permitted under the 1940 Act, and the rules thereunder. The redeeming shareholder should expect to incur transaction costs upon the disposition of the securities received.

- **Retirement Plans and Other Products.** If you purchased shares through a packaged investment product or retirement plan, read the directions for selling shares provided by the product or plan. There may be special requirements that supersede the directions in this Prospectus.
- **Payment of Dividends.** Requests for redemption proceeds by check or Electronic Funds Transfer that are received in proper form will be sent out by the next business day after receipt and will earn a dividend until the day such proceeds are sent.
- **Redemption Orders.** Wire redemptions will be processed and earn dividends as listed in the table below.

If a Proper Order is Received:	Proceeds Wired	Dividends
<b>California Municipal Money Market Fund Municipal Cash Management Money Market Fund National Tax-Free Money Market Fund</b>		
■ By 12:00 p.m. (ET)	Same Business Day	Not earned on day of request
■ After 12:00 p.m. (ET)	Next Business Day	Earned on day of request
<b>100% Treasury Plus Money Market Fund</b>		
■ By 1:00 p.m. (ET)	Same Business Day	Not earned on day of request
■ After 1:00 p.m. (ET)	Next Business Day	Earned on day of request
<b>Cash Investment Money Market Fund Government Money Market Fund Heritage Money Market Fund Treasury Plus Money Market Fund</b>		
■ By 5:00 p.m. (ET)	Same Business Day	Not earned on day of request
■ After 5:00 p.m. (ET)	Next Business Day	Earned on day of request

# How to Exchange Shares

---

Exchanges between *Wells Fargo Advantage Funds* involve two transactions: (1) a sale of shares of one Fund; and (2) the purchase of shares of another. In general, the same rules and procedures that apply to sales and purchases apply to exchanges. There are, however, additional factors you should keep in mind while making or considering an exchange:

- In general, exchanges may be made between like share classes of any Wells Fargo Advantage Fund offered to the general public for investment (i.e., a Fund not closed to new accounts).
  - Administrator Class shares of the Heritage Money Market Fund and National Tax-Free Money Market Fund may be exchanged for Investor Class shares of any money market or non-money market fund.
- Same-fund exchanges between Class A, Class C, Administrator Class, Institutional Class and Investor Class shares are permitted subject to the following conditions: (1) exchanges out of Class A and Class C shares would not be allowed if shares are subject to a CDSC; and (2) the shareholder must meet the eligibility guidelines of the class being purchased in the exchange.
- An exchange request will be processed on the same business day, provided that both Funds are open at the time the request is received. If one or both Funds are closed, the exchange will be processed on the following business day.
- You should carefully read the prospectus for the Wells Fargo Advantage Fund into which you wish to exchange.
- If you exchange between a money market Fund and Class A shares of a non-money market Fund, you will buy shares at the Public Offering Price (POP) of the new Fund unless you are otherwise eligible to buy shares at NAV.
- Every exchange involves selling Fund shares, which may produce a capital gain or loss for tax purposes.
- If you are making an initial investment into a Fund through an exchange, you must exchange at least the minimum initial purchase amount for the new Fund, unless your balance has fallen below that amount due to investment performance.
- Any exchange between two *Wells Fargo Advantage Funds* must meet the minimum subsequent purchase amounts.

Generally, we will notify you at least 60 days in advance of any changes in our exchange policy.

## Frequent Purchases and Redemptions of Fund Shares

Excessive trading by a Fund's shareholders can negatively impact the Fund and its long-term shareholders by increasing expenses or lowering returns. However, money market Funds, which are typically utilized by investors for cash management purposes and invest in highly liquid securities, are not as susceptible to these negative effects as some other types of Funds. Moreover, because money market Funds typically maintain a \$1.00 net asset value, there is no significant financial incentive for an investor to attempt to market time investments into and out of a money market Fund.

Although the money market Funds do not prohibit frequent trading by shareholders of such Funds, Funds Management will seek to prevent an investor from utilizing a money market Fund to facilitate frequent purchases and redemptions of shares in the long-term, non-money market Funds. If Funds Management determines that an investor has engaged in market timing activities in contravention of a long-term, non-money market Fund's policies (as described in the prospectus for such Fund), Funds Management will prevent such investor from investing in the long-term, non-money market Fund for a period of 30 calendar days.

In addition, Funds Management reserves the right to accept purchases, redemptions and exchanges made in excess of applicable trading restrictions in designated accounts held by Funds Management or its affiliate that are used at all times exclusively for addressing operational matters related to shareholder accounts, such as testing of account functions, and are maintained at low balances that do not exceed specified dollar amount limitations.

# Account Policies

---

## Automatic Plans

These plans help you conveniently purchase and/or redeem shares each month. Once you select a plan, tell us the day of the month you would like the transaction to occur. If you do not specify a date, we will process the transaction on or about the 25th day of the month. Call Investor Services at 1-800-222-8222 for more information.

- **Automatic Investment Plan** —With this plan, you can regularly purchase shares of a *Wells Fargo Advantage Fund* with money automatically transferred from a linked bank account.
- **Automatic Exchange Plan** —With this plan, you can regularly exchange shares of a *Wells Fargo Advantage Fund* you own for shares of another Wells Fargo Advantage Fund. See the “How to Exchange Shares” section of this Prospectus for the conditions that apply to your shares. This feature may not be available for certain types of accounts.
- **Systematic Withdrawal Plan** —With this plan, you can regularly redeem shares and receive the proceeds by check or by transfer to a linked bank account. To participate in this plan, you:
  - must have a Fund account valued at \$10,000 or more; and
  - must have your distributions reinvested.
- **Payroll Direct Deposit** —With this plan, you may transfer all or a portion of your paycheck, social security check, military allotment, or annuity payment for investment into the Fund of your choice.

It generally takes about ten business days to establish a plan once we have received your instructions. It generally takes about five business days to change or cancel participation in a plan. We may automatically cancel your plan if the linked bank account you specified is closed, or for other reasons.

## Advance Notice of Large Transactions

We strongly urge you to begin all purchases and redemptions as early in the day as possible and to notify us at least one day in advance of transactions in excess of \$50,000,000. This will allow us to manage the Funds most effectively. When you give us this advance notice, you must provide us with your name and account number.

## Householding

To help keep Fund expenses low, a single copy of a prospectus or shareholder report may be sent to shareholders of the same household. If your household currently receives a single copy of a prospectus or shareholder report and you would prefer to receive multiple copies, please contact your financial intermediary.

## Statements and Confirmations

Statements summarizing activity in your account are mailed quarterly. Confirmations are mailed following each purchase, sale, exchange, or transfer of Fund shares, except generally for Automatic Investment Plan transactions, Systematic Withdrawal Plan transactions using Electronic Funds Transfer, and purchases of new shares through the automatic reinvestment of distributions. Upon your request and for the applicable fee, you may obtain a reprint of an account statement. Please call Investor Services at 1-800-222-8222 for more information.

## Statement Inquiries

Contact us in writing regarding any errors or discrepancies noted on your account statement within 60 days after the date of the statement confirming a transaction. We may deny your ability to refute a transaction if we do not hear from you within those 60 days.

## Transaction Authorizations

Telephone, electronic, and clearing agency privileges allow us to accept transaction instructions by anyone representing themselves as the shareholder and who provides reasonable confirmation of their identity. Neither we nor *Wells Fargo Advantage Funds* will be liable for any losses incurred if we follow such instructions we reasonably believe to be genuine. For transactions through the automated phone system and our Web site, we will assign personal identification numbers (PINs) and/or passwords to help protect your account information. To safeguard your account, please keep your PINs and passwords confidential. Contact us immediately if you believe there is a discrepancy on your confirmation statement or if you believe someone has obtained unauthorized access to your account, PIN or password.

## USA PATRIOT Act

In compliance with the USA PATRIOT Act, all financial institutions (including mutual funds) at the time an account is opened, are required to obtain, verify and record the following information for all registered owners or others who may be authorized to act on the account: full name, date of birth, taxpayer identification number (usually your Social Security Number), and permanent street address. Corporate, trust and other entity accounts require additional documentation.

This information will be used to verify your identity. We will return your application if any of this information is missing, and we may request additional information from you for verification purposes. In the rare event that we are unable to verify your identity, we reserve the right to redeem your account at the current day's NAV. You will be responsible for any losses, taxes, expenses, fees, or other results of such a redemption.

# Distributions

---

The Funds declare distributions of net investment income, if any, daily, and make such distributions, if any, monthly. The Funds generally make distributions of realized net capital gains, if any, annually. Your distributions will be automatically reinvested in additional shares, unless you or your Institution directs otherwise. Your other options are to receive checks for these payments, have them automatically invested in the same class of another Wells Fargo Advantage Fund, or have them deposited into your bank account. With the check payment option, if checks remain uncashed for six months or are undeliverable by the Post Office, we will reinvest the distributions at the earliest date possible, and future distributions will be automatically reinvested.

We offer the following distribution options. To change your current option for payment of distributions, please contact your institution or call 1-800-222-8222.

- **Automatic Reinvestment Option**—Allows you to buy new shares of the same class of the Fund that generated the distributions. The new shares are purchased at NAV generally on the day the distribution is paid. This option is automatically assigned to your account unless you specify another option.
- **Check Payment Option**—Allows you to have checks for distributions mailed to your address of record or to another name and address which you have specified in written instructions. A medallion guarantee may also be required. If checks remain uncashed for six months or are undeliverable by the Post Office, we will reinvest the distributions at the earliest date possible, and future distributions will be automatically reinvested.
- **Bank Account Payment Option**—Allows you to receive distributions directly in a checking or savings account through Electronic Funds Transfer. The bank account must be linked to your Wells Fargo Advantage Fund account. Any distribution returned to us due to an invalid banking instruction will be sent to your address of record by check at the earliest date possible, and future distributions will be automatically reinvested.
- **Directed Distribution Purchase Option**—Allows you to buy shares of a different Wells Fargo Advantage Fund of the same share class. The new shares are purchased at NAV generally on the day the distribution is paid. In order to establish this option, you need to identify the Fund and account the distributions are coming from, and the Fund and account to which the distributions are being directed. You must meet any required minimum purchases in both Funds prior to establishing this option.

# Taxes

---

The following discussion regarding income taxes is based on laws that were in effect as of the date of this Prospectus and summarizes only some of the important federal and state income tax considerations affecting the Funds and you as a shareholder. It does not apply to foreign or tax-exempt shareholders or those holding Fund shares through a tax-advantaged account, such as a 401(k) Plan or IRA. This discussion is not intended as a substitute for careful tax planning. You should consult your tax adviser about your specific tax situation. Please see the Statement of Additional Information for additional federal income tax information.

We will pass on to a Fund's shareholders substantially all of the Fund's net investment income and realized net capital gains, if any. With respect to the National Tax-Free Money Market Fund, as well as the California Municipal Money Market Fund and Municipal Cash Management Money Market Fund ("Municipal Money Market Funds"), it is intended that distributions from the Funds' net interest income from tax-exempt securities will not be subject to federal income tax, although a portion of such distributions could be subject to the federal AMT. It is intended that distributions of the California Municipal Money Market Fund's net interest income from California state and municipal obligations generally will not be subject to California individual income tax, although a portion of such distributions could be subject to the California AMT.

Distributions of ordinary income from the Municipal Money Market Funds and the National Tax-Free Money Market Fund attributable to other sources, if any, and of ordinary income from the other Funds attributable to all sources, if any, generally will be taxable to you as ordinary income. Although the Funds do not expect to realize any capital gain, distributions of a Fund's net short-term capital gain, if any, generally will be taxable to you as ordinary income and distributions of a Fund's net long-term capital gain, if any, generally will be taxable to you as long-term capital gain. Distributions of net investment income from the 100% Treasury Money Market Fund generally will be exempt in most jurisdictions from state and local individual income taxes, but may not be exempt from state and local corporate income and/or franchise taxes. Corporate shareholders should not expect to deduct a portion of their distributions when determining their taxable income. In general, distributions also will not qualify for reductions in federal income taxation of dividends payable to individuals from certain domestic and foreign corporations.

To the extent a distribution from a Fund is taxable, such distributions will be taxable to you when paid, whether you take distributions in cash or automatically reinvest them in additional Fund shares. Following the end of each year, we will notify you of the federal income tax status of your distributions for the year. An individual's net long-term capital gain is subject to a reduced, maximum 15% rate of tax. Maximum long-term capital gain income tax rates are scheduled to rise to 20% in 2013, 18% for assets held more than 5 years. Due to recent legislation, beginning in 2013, U.S. individuals with income exceeding \$200,000 (\$250,000 if married and filing jointly), a new 3.8% Medicare contribution tax will apply on "net investment income," including interest, dividends, and capital gains.

In certain circumstances, Fund shareholders may be subject to back-up withholding taxes.

As long as a Fund continually maintains a \$1.00 NAV, you ordinarily will not recognize a taxable gain or loss on the redemption or exchange of your Fund shares.

# Additional Performance Information

---

This section contains additional information regarding the performance of the Funds. The sub-section below titled "Share Class Performance" provides history for specified share classes of certain Funds.

## Share Class Performance

The following provides additional information about the performance history of the Funds contained in this prospectus, including information regarding predecessor funds, if any, and whether performance information presented is based on the history of an older share class.

- **California Municipal Money Market Fund** - Historical performance shown for the Administrator Class shares prior to their inception reflects the performance of the Institutional Class shares, and has not been adjusted to reflect higher expenses applicable to the Administrator Class shares. If these expenses had been adjusted, returns would be lower.
- **Cash Investment Money Market Fund** - Historical performance shown for the Administrator Class shares prior to their inception reflects the performance of the Service Class shares, and includes the higher expenses applicable to the Service Class shares. If these expenses had not been included, returns would be higher.
- **Government Money Market Fund** - Historical performance shown for the Administrator Class shares prior to their inception reflects the performance of the Service Class shares, and includes the higher expenses applicable to the Service Class shares. If these expenses had not been included, returns would be higher.
- **Municipal Cash Management Money Market Fund** - Historical performance shown for the Administrator Class shares prior to their inception reflects the performance of the Institutional Class shares, and has not been adjusted to include the higher expenses applicable to the Administrator Class shares. If these expenses had been included, returns would be lower. Historical performance shown for all classes of the Fund prior to July 12, 2010 is based on the performance of the fund's predecessor, Evergreen Institutional Municipal Money Market Fund.
- **National Tax-Free Money Market Fund** - Historical performance shown for the Administrator Class shares prior to their inception reflects the performance of the Service Class shares, and includes the higher expenses applicable to the Service Class shares. If these expenses had not been included, returns would be higher.
- **Treasury Plus Money Market Fund** - Historical performance shown for the Administrator Class shares prior to their inception reflects the performance of the Institutional Class shares, and is adjusted to reflect the higher expenses applicable to the Administrator Class.
- **100% Treasury Money Market Fund** - Historical performance shown for the Administrator Class shares prior to their inception reflects the performance of the Service Class shares, and includes the higher expenses applicable to the Service Class shares. If these expenses had not been included, returns would be higher.

A Fund's past performance is no guarantee of future results. A Fund's investment results will fluctuate over time, and any representation of the Fund's returns for any past period should not be considered as a representation of what a Fund's returns may be in any future period. The Fund's annual and semi-annual reports contain additional performance information and are available upon request, without charge, by calling the telephone number listed on the back cover page of this Prospectus.

# Financial Highlights

The financial highlights table is intended to help you understand a Fund's financial performance for the past five years (or since inception, if shorter). Certain information reflects financial results for a single Fund share. Total returns represent the rate you would have earned (or lost) on an investment in each Fund (assuming reinvestment of all distributions). The information in the following tables has been derived from the Funds' financial statements, which have been audited by the Funds' independent registered public accounting firm whose report, along with each Fund's financial statements, is also included in each Fund's annual report, a copy of which is available upon request.

## California Municipal Money Market Fund

For a share outstanding throughout each period.
