C&B Mid Cap Value Fund Summary

Class/Ticker: Investor Class - CBMDX

Summary Prospectus | February 10, 2014

[Link to Prospectus](#)

[Link to SAI](#)

Before you invest, you may want to review the Fund's prospectus, which contains more information about the Fund and its risks. You can find the Fund's prospectus and other information about the Fund online at wellsfargoadvantagefunds.com/reports. You can also get information at no cost by calling 1-800-222-8222, or by sending an email request to wfaf@wellsfargo.com. The current prospectus ("Prospectus") and statement of additional information ("SAI") dated February 1, 2014 as supplemented February 10, 2014 are incorporated by reference into this summary prospectus. The Fund's SAI may be obtained, free of charge, in the same manner as the Prospectus.

Investment Objective

The Fund seeks maximum long-term total return (current income and capital appreciation), consistent with minimizing risk to principal.

Fees and Expenses

These tables are intended to help you understand the various costs and expenses you will pay if you buy and hold shares of the Fund.

Shareholder Fees (fees paid directly from your investment)

Maximum sales charge (load) imposed on purchases (as a percentage of offering price)	None
Maximum deferred sales charge (load) (as a percentage of offering price)	None

Annual Fund Operating Expenses (expenses that you pay each year as a percentage of the value of your investment)

Management Fees	0.70%
Distribution (12b-1) Fees	0.00%
Other Expenses	0.74%
Acquired Fund Fees and Expenses	0.01%
Total Annual Fund Operating Expenses	1.45%
Fee Waivers	0.19%
Total Annual Fund Operating Expenses After Fee Waiver¹	1.26%

1. The Adviser has committed through January 31, 2015, to waive fees and/or reimburse expenses to the extent necessary to cap the Fund's Total Annual Fund Operating Expenses After Fee Waiver at 1.25% for Investor Class. Brokerage commissions, stamp duty fees, interest, taxes, acquired fund fees and expenses, and extraordinary expenses are excluded from the cap. After this time, the cap may be increased or the commitment to maintain the cap may be terminated only with the approval of the Board of Trustees.

Example of Expenses

The example below is intended to help you compare the costs of investing in the Fund with the costs of investing in other mutual funds. The example assumes a \$10,000 initial investment, 5% annual total return, and that operating expenses remain the same as in the tables above. The example also assumes that the Total Annual Fund Operating Expenses After Fee Waiver shown above will only be in place for the length of the current waiver commitment. Although your actual costs may be higher or lower, based on these assumptions your costs would be:

After:	
1 Year	\$128
3 Years	\$440
5 Years	\$774
10 Years	\$1,719

Portfolio Turnover

The Fund pays transaction costs, such as commissions, when it buys and sells securities (or "turns over" its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in annual fund operating expenses or in the example, affect the Fund's performance. During the most recent fiscal year, the Fund's portfolio turnover rate was 48% of the average value of its portfolio.

Principal Investment Strategies

Under normal circumstances, we invest:

- at least 80% of the Fund's net assets in equity securities of medium-capitalization companies.

We invest principally in equity securities of medium-capitalization companies, which we define as securities of companies with market capitalization within the range of the Russell Midcap® Index at the time of purchase. The market capitalization range of the Russell Midcap® Index was approximately \$737.7 million to \$32.0 billion, as of December 31, 2013, and is expected to change frequently.

We manage a relatively focused portfolio of 30 to 50 companies that we believe enables us to provide adequate diversification while allowing the composition and performance of the portfolio to behave differently than the market.

We select securities for the portfolio based on an analysis of a company's financial characteristics and an assessment of the quality of a company's management. In selecting a company, we consider criteria such as return on equity, balance sheet strength, industry leadership position and cash flow projections. We further narrow the universe of acceptable investments by undertaking intensive research including interviews with a company's top management, customers and suppliers. We believe our assessment of business quality and emphasis on valuation will protect the portfolio's assets in down markets, while our insistence on strength in leadership, financial condition and cash flow position will produce competitive results in all but the most speculative markets. We regularly review the investments of the portfolio and may sell a portfolio holding when it has achieved its valuation target, there is deterioration in the underlying fundamentals of the business, or we have identified a more attractive investment opportunity.

Principal Investment Risks

An investment in the Fund may lose money, is not a deposit of Wells Fargo Bank, N.A. or its affiliates, is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other governmental agency, and is primarily subject to the risks briefly summarized below.

Focused Portfolio Risk. Since the Fund tends to invest in a smaller number of stocks than do many other similar mutual funds, changes in the value of individual stocks held by the Fund may have a larger impact on the Fund's net asset value than if the Fund were more broadly invested.

Issuer Risk. The value of a security may decline because of adverse events or circumstances that directly relate to conditions at the issuer or any entity providing it credit or liquidity support.

Liquidity Risk. A security may not be able to be sold at the time desired or without adversely affecting the price.

Management Risk. Investment decisions made by a Fund's adviser in seeking to achieve the Fund's investment objective may not produce the returns expected by the adviser, may cause the securities held by the Fund and, in turn, the Fund's shares, to lose value or may cause the Fund to underperform other funds with similar investment objectives.

Market Risk. The market price of securities owned by the Fund may rapidly or unpredictably decline due to factors affecting securities markets generally or particular industries.

Regulatory Risk. Changes in government regulations may adversely affect the value of a security. An insufficiently regulated industry or market might also permit inappropriate practices that adversely affect an investment.

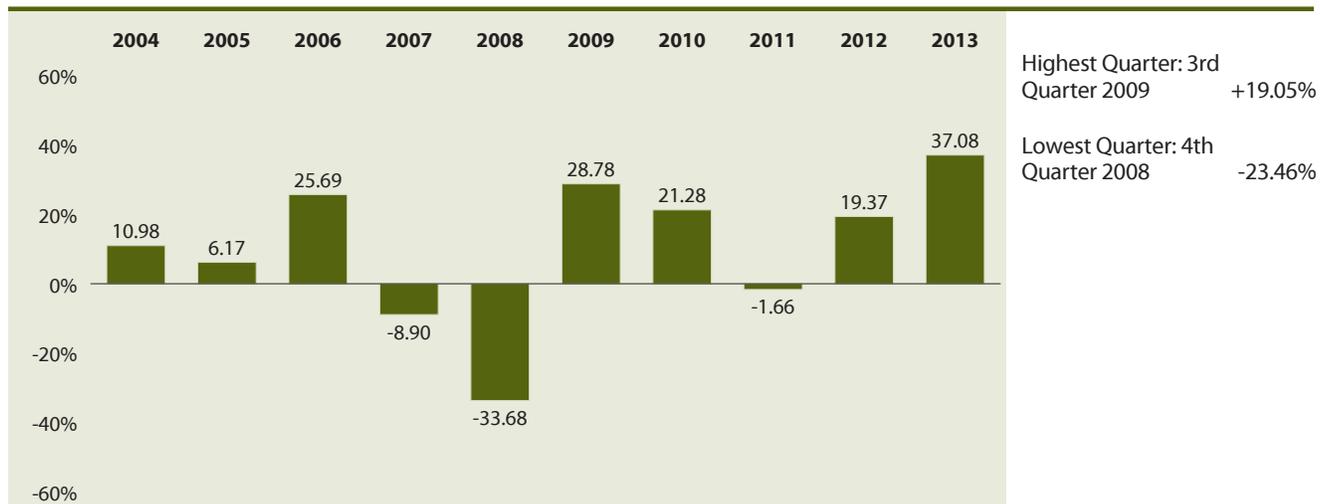

Smaller Company Securities Risk. Securities of companies with smaller market capitalizations tend to be more volatile and less liquid than larger company stocks.

Value Style Investment Risk. Value stocks may lose value and may be subject to prolonged depressed valuations.

Performance

The following information provides some indication of the risks of investing in the Fund by showing changes in the Fund's performance from year to year. The Fund's average annual total returns are compared to the performance of one or more indices. Past performance before and after taxes is no guarantee of future results. Current month-end performance is available on the Fund's Web site at wellsfargoadvantagefunds.com.

Calendar Year Total Returns as of 12/31 each year Investor Class

Average Annual Total Returns for the periods ended 12/31/2013

	Inception Date of Share Class	1 Year	5 Year	10 Year
Investor Class (before taxes)	2/18/1998	37.08%	20.24%	8.44%
Investor Class (after taxes on distributions)	2/18/1998	36.91%	20.12%	7.42%
Investor Class (after taxes on distributions and the sale of Fund Shares)	2/18/1998	20.98%	16.57%	6.70%
Russell Midcap® Value Index (reflects no deduction for fees, expenses, or taxes)		33.46%	21.16%	10.25%

After-tax returns are calculated using the historical highest individual federal marginal income tax rates and do not reflect the impact of state, local or foreign taxes. Actual after-tax returns depend on an investor's tax situation and may differ from those shown, and after-tax returns shown are not relevant to tax-exempt investors or investors who hold their Fund shares through tax-deferred arrangements, such as 401(k) Plans or Individual Retirement Accounts.

Box 8266 Boston, MA 02266-8266 Internet: wellsfargoadvantagefunds.com Phone or Wire: 1-800-222-8222 Contact your financial professional.

Tax Information

Any distributions you receive from the Fund may be taxable as ordinary income or capital gains, except when your investment is in an IRA, 401(k) or other tax advantaged investment plan. However, subsequent withdrawals from such a tax advantaged investment plan may be subject to federal income tax. You should consult your tax adviser about your specific tax situation.

Payments to Broker-Dealers and Other Financial Intermediaries

If you purchase a Fund through a broker-dealer or other financial intermediary (such as a bank), the Fund and its related companies may pay the intermediary for the sale of Fund shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend the Fund over another investment. Consult your salesperson or visit your financial intermediary's Web site for more information.
