Before you invest, you may want to review the Fund's prospectus, which contains more information about the Fund and its risks. You can find the Fund's prospectus and other information about the Fund online at wellsfargoadvantagefunds.com/reports. You can also get information at no cost by calling 1-800-222-8222, or by sending an email request to wfaf@wellsfargo.com. The current prospectus ("Prospectus") and statement of additional information ("SAI"), dated December 1, 2013, are incorporated by reference into this summary prospectus. The Fund's SAI may be obtained, free of charge, in the same manner as the Prospectus.

Investment Objective

The Fund seeks long-term capital appreciation.

Fees and Expenses

These tables are intended to help you understand the various costs and expenses you will pay if you buy and hold shares of the Fund. You may qualify for sales charge discounts if you and your family invest, or agree to invest in the future, at least \$50,000 in the aggregate in specified classes of certain *Wells Fargo Advantage Funds*[®]. More information about these and other discounts is available from your financial professional and in "A Choice of Share Classes" and "Reductions and Waivers of Sales Charges" on pages 66 and 69 of the Prospectus and "Additional Purchase and Redemption Information" on page 56 of the Statement of Additional Information.

Shareholder Fees (fees paid directly from your investment)

	Class A	Class B	Class C
Maximum sales charge (load) imposed on purchases (as a percentage of offering price)	5.75%	None	None
Maximum deferred sales charge (load) (as a percentage of offering price)	None ¹	5.00%	1.00%

1. Investments of \$1 million or more are not subject to a front-end sales charge but generally will be subject to a deferred sales charge of 1.00% if redeemed within 18 months from the date of purchase.

Annual Fund Operating Expenses (expenses that you pay each year as a percentage of the value of your investment)¹

	Class A	Class B	Class C
Management Fees	0.64%	0.64%	0.64%
Distribution (12b-1) Fees	0.00%	0.75%	0.75%
Other Expenses	0.58%	0.58%	0.58%
Acquired Fund Fees and Expenses	0.01%	0.01%	0.01%
Total Annual Fund Operating Expenses	1.23%	1.98%	1.98%
Fee Waivers	0.06%	0.06%	0.06%
Total Annual Fund Operating Expenses After Fee Waiver²	1.17%	1.92%	1.92%

- Expenses have been adjusted as necessary from amounts incurred during the Fund's most recent fiscal year to reflect current fees and expenses.
- The Adviser has committed through November 30, 2014, to waive fees and/or reimburse expenses to the extent necessary to cap the Fund's Total Annual Fund Operating Expenses After Fee Waiver at 1.16% for Class A, 1.91% for Class B and 1.91% for Class C. Brokerage commissions, stamp duty fees, interest, taxes, acquired fund fees and expenses, and extraordinary expenses are excluded from the cap. After this time, the cap may be increased or the commitment to maintain the cap may be terminated only with the approval of the Board of Trustees.

Example of Expenses

The example below is intended to help you compare the costs of investing in the Fund with the costs of investing in other mutual funds. The example assumes a \$10,000 initial investment, 5% annual total return, and that operating expenses remain the same as in the tables above. The example also assumes that the Total Annual Fund Operating Expenses After Fee Waiver shown above will only be in place for the length of the current waiver commitment. Although your actual costs may be higher or lower, based on these assumptions your costs would be:

	Assuming Redemption at End of Period			Assuming No Redemption	
After:	Class A	Class B	Class C	Class B	Class C
1 Year	\$687	\$695	\$295	\$195	\$195
3 Years	\$937	\$916	\$616	\$616	\$616
5 Years	\$1,206	\$1,262	\$1,062	\$1,062	\$1,062
10 Years	\$1,973	\$2,017	\$2,301	\$2,017	\$2,301

Portfolio Turnover

The Fund pays transaction costs, such as commissions, when it buys and sells securities (or "turns over" its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in annual fund operating expenses or in the example, affect the Fund's performance. During the most recent fiscal year, the Fund's portfolio turnover rate was 28% of the average value of its portfolio.

Principal Investment Strategies

Under normal circumstances, we invest:

- at least 80% of the Fund's total assets in equity securities of large-capitalization companies; and
- up to 20% of the Fund's total assets in equity securities of foreign issuers, through ADRs and similar investments

We invest principally in equity securities of approximately 30 to 50 large-capitalization companies, which we define as companies with market capitalizations within the range of the Russell 1000® Index. The market capitalization range of the Russell 1000® Index was approximately \$407 million to \$470 billion, as of October 31, 2013, and is expected to change frequently. We may also invest in equity securities of foreign issuers through ADRs and similar investments.

We utilize a long-term focus that is intended to take advantage of investment opportunities presented by what we believe are short-term price anomalies in high-quality stocks. We seek to identify companies with established operating histories, financial strength and management expertise, among other factors. We seek stocks that are trading at a discount to what we believe are their intrinsic values. Fundamental research is performed to identify securities for the portfolio with one or more catalysts present that we believe will unlock the intrinsic value of the securities. These catalysts may include productive use of strong free cash flow, productivity gains, positive change in management or control, innovative or competitively superior products, increasing shareholder focus, or resolution of ancillary problems or misperceptions. We may sell a holding if the value potential is realized, if warning signs emerge of beginning fundamental deterioration or if the valuation is no longer compelling relative to other investment opportunities.

Principal Investment Risks

An investment in the Fund may lose money, is not a deposit of Wells Fargo Bank, N.A. or its affiliates, is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other governmental agency, and is primarily subject to the risks briefly summarized below.

Focused Portfolio Risk. Since the Fund tends to invest in a smaller number of stocks than do many other similar mutual funds, changes in the value of individual stocks held by the Fund may have a larger impact on the Fund's net asset value than if the Fund were more broadly invested.

Foreign Investment Risk. Foreign investments face the potential of heightened illiquidity, greater price volatility and adverse effects of political, regulatory, tax, currency, economic or other macroeconomic developments.

Issuer Risk. The value of a security may decline because of adverse events or circumstances that directly relate to conditions at the issuer or any entity providing it credit or liquidity support.

Larger Company Securities Risk. Securities of companies with larger market capitalizations may underperform securities of companies with smaller and mid-sized market capitalizations in certain economic environments.

Liquidity Risk. A security may not be able to be sold at the time desired or without adversely affecting the price.

Management Risk. Investment decisions made by a Fund's adviser in seeking to achieve the Fund's investment objective may not produce the returns expected by the adviser, may cause the securities held by the Fund and, in turn, the Fund's shares to lose value or may cause the Fund to underperform other funds with similar investment objectives.

Market Risk. The market price of securities owned by the Fund may rapidly or unpredictably decline due to factors affecting securities markets generally or particular industries.

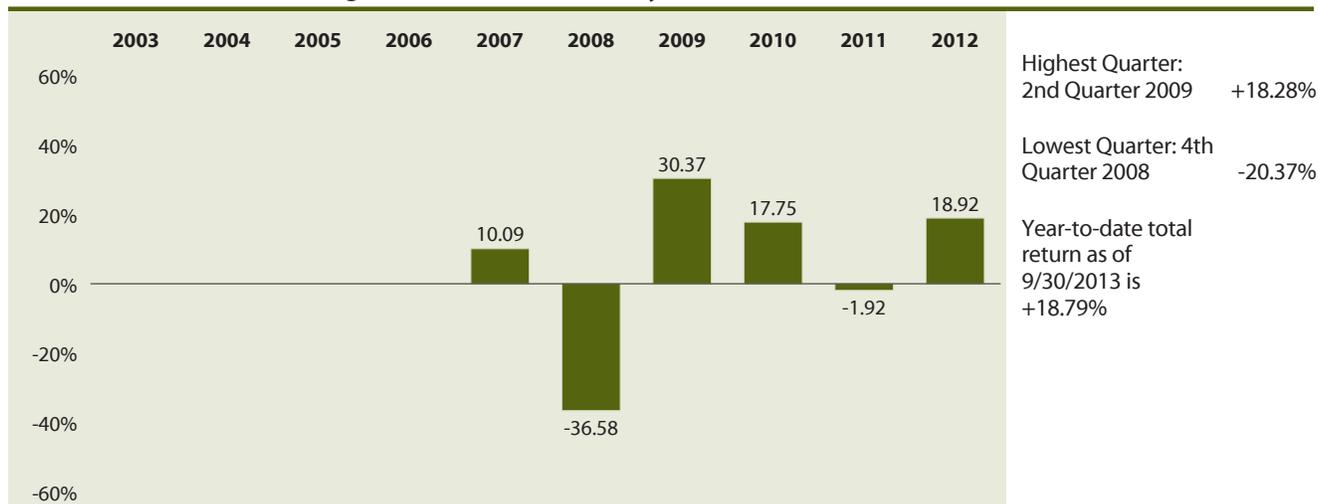

Regulatory Risk. Changes in government regulations may adversely affect the value of a security. An insufficiently regulated industry or market might also permit inappropriate practices that adversely affect an investment.

Value Style Investment Risk. Value stocks may lose value and may be subject to prolonged depressed valuations.

Performance

The following information provides some indication of the risks of investing in the Fund by showing changes in the Fund's performance from year to year. The Fund's average annual total returns are compared to the performance of one or more indices. Past performance before and after taxes is no guarantee of future results. Current month-end performance is available on the Fund's Web site at wellsfargoadvantagefunds.com.

After-tax returns are calculated using the historical highest individual federal marginal income tax rates and do not reflect the impact of state, local or foreign taxes. Actual after-tax returns depend on an investor's tax situation and may differ from those shown, and after-tax returns shown are not relevant to tax-exempt investors or investors who hold their Fund shares through tax-deferred arrangements, such as 401(k) Plans or Individual Retirement Accounts. After-tax returns are shown only for the Class A shares. After-tax returns for the Class B and Class C shares will vary.

Tax Information

Any distributions you receive from the Fund may be taxable as ordinary income or capital gains, except when your investment is in an IRA, 401(k) or other tax advantaged investment plan. However, subsequent withdrawals from such a tax advantaged investment plan may be subject to federal income tax. You should consult your tax adviser about your specific tax situation.

Payments to Broker-Dealers and Other Financial Intermediaries

If you purchase a Fund through a broker-dealer or other financial intermediary (such as a bank), the Fund and its related companies may pay the intermediary for the sale of Fund shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend the Fund over another investment. Consult your salesperson or visit your financial intermediary's Web site for more information.
